## LATE NEWS

## 2 Israeli Leaders **Clash on Talks**

TEL AVIV (AP) — Prime Minister Yitzhak Shamir sharply disagreed Wednesday with recent remarks by Foreign Minister Shimoa Peres that Israel was committed to participate in international talks on the Middle East.

The dispute was their first public clash about the stalled peace moves since they switched jobs 100 days ago under a 1984 agreement to alternate the post of prime minister. Mr. Peres, the Labor Party leader, noted that the Knesset

Israel's parliament, had approved an international conference when he presented the pro-posal in November 1985. "No

one has the aathority to change that without a majority," he said. But Mr. Shamir, of the rightist Likud bloc, told the Knesset on Wednesday, "I don't think it's a desirable situa tion" to hold an international conference. He said the Knesset's earlier approval was not binding on his government.

## In Beijing, the Power Stuggle Is On

Tianjin Mayor Said to Be Deng Favorite for Prime Minister

By Daniel Southerland

Washington Post Service BELIING --- Although ideology dominates the headlines in China's newspapers, party officials are en-gaged in a struggle for power and influence that counts as match as the ideological arguments, diplomais and other analysis said

Wednesday. According to two Chinese analysts who have separate connec-tions to high levels of the govern-ment. Deng Xiaoping, China's senior leader, decided several

months ago that the former Communist Party chief, Hu Yaobang, who was forced to resign Jan. 16, holding Mr. Waite. was accumulating power and influ-

ence at too rapid a rate. They said thet Mr. Hu had placed many of his proteges in po-sitions of influence without consulting other leaders. Mr. Hu, it is said, also neglected

to give a place in his plans to cer-121 In Iran, the speaker of the parliatain powerful interest groups, inment, Hashemi Rofsanjani, said of cluding the military and conservaove party ideologues.

which, in the view of party conservatives, would have decreased the power of the Communist Party and its influence in both the government and industry. He fostered a more open political debate, allow-ing academics to propose ideas that challenged party control over much of society and the economy. Some sources say that the con-

servatives, in particular, apparently complained to Mr. Deng about Mr. Hu's moves and that pressure from the conservatives probably proved critical in turning Mr. Deng against his protégé.

Mr. Deng apparently prefers to have a balance of power at the top. Then, from a position somewhere in the middle of a spectrum of

views, he acts as supreme arbiter. With Mr. Ho oow out of the picture, Mr. Deng is attempting to establish a new balance that will take all interests into account, one analyst said. The key question is: Who should be made prime minis-ter to replace Zhao Ziyang, who

Mr. Hu favored political changes recently assumed the positioa of acting Communist Party chief? Diplomats said that Mr. Deng's initial impulse was to look for new blood for the prime minister's office and that he had settled on Li Ruihnan, 52, the mayor of Tianjin, for the job. But Mr. Li has had no experience

working at a high level in the cantral government and will require more grooming if he is to get the post, they said. Io the meantime, other candi- anese could he forced to dump the

## WORLD BRIEFS

## At Least 26 Die in Sri Lanka Fighting

COLOMBO, Sri Lanka (AP) — Tamil rebels killed six policemen in an ambush on a convoy, and government security forces killed 20 guerrillas during retaliatory attacks on rebel hideouts Wednesday, the government

Residents in the area said at least 15 civilians also were killed by government forces. The government said civilians may have been killed or wounded in the crossfire, but it provided no figures.

## 6 Irish Soldiers Hurt in Lebanon Blast

JERUSALEM (AFP) - A total of six Irish soldiers of the United Nations Interim Force in Lebanon were wounded in a bomb blast early Wednesday at the Irish battalion headquarters in southern Lebanon, the force's spokesman said Wednesday. Initial reports said only two soldiers were wounded.

The spokesman, Timur Goksel, said by telephone that five remote-controlled bombs had been placed inside the headquarters, which are at Tibnin in the central part of southern Lebanon.

Four of the bombs, containing about 22 pounds (10 kilograms) of 3 explosive, were defused in time, but the fifth went off, severely wounding two of the soldiers.

## **Striking Madrid Students See Minister**

MADRID (Reuters) - Striking Spanish students met with Education Minister José Maria Maravall on Wednesday, but both sides said after the talks that no solutions had been found to end the unrest that has crippled high schools for more than a week. "We want to reach an agreement, but if Maravall refuses to discuss the

"We want to reach an agreement, but it Maravail retrises to inscuss the university entrance system our fight will continue," a student leader, Juan Ignacio Ramos, said after the meeting. "We will not back down on demands to scrap the university admission exams." While the talks were taking place in Madrid, students and police clashed in Barcelona, where 10,000 demonstrators took to the streets to

press their demands for cheaper and easier access to university. The police fired rubber bullets and tear gas to disperse the crowd, but no injuries or arrests were reported.

## High U.S. Official Arrives in Warsaw

WARSAW (UPI) - The deputy U.S. secretary of state, John C. Whitehead, arrived here Wednesday on a four-day visit for the first high-level U.S.-Poland talks in Warsaw since martial law was declared in 1981. At the same time, Prime Minister Zbigniew Messner told Poland's parliament, the Sejm, that Warsaw was ready to normalize relations with

the Washington only on condition that the United States stops interfering in Poland's internal affairs.

JOHANNESBURG - Despite Mr. Whitehead said in a brief arrival statement that remaining U.S. papal injunction against church sanctions against Poland will stay under review and not be lifted during his visit. Relations between Warsaw and Washington have been strained since the Polish authorities outlawed the Solidarity labor movement and involvement in politics, South Africa's Catholic dergymen will protest apartheid's injustice, a bishop said Wednesday. "Life in South Africa is governed imposed martial law for three years.

Grand Jury Picked in Iran Arms Case WASHINGTON (AP) - A U.S. judge selected a grand jury Wednes-

day to investigate the Iran-contra affair. Judge Anbrey Robinson of U.S. District Court chose a panel of 23 jurors to hear testimony about the sale of arms to Iran and the alleged

diversion of proceeds to the anti-Sandinist rebels in Nicaragua. The grand jury, which has the power to subpoena wincesses and documents, will be the primary investigative tool of Lawrence E. Walsh, the former federal judge named by a special court to conduct the independent investigation. The jury also has the power to indict individ-uals if it determines that criminal violations occurred.

## **Congress Moves to End U.S. Rail Strike**

WASHINGTON (NYT) -- Congress has approved legislation to try to end the 11-day strike against the Long Island Rail Road during a 60-day cooling-off period.

If President Ronald Reagan signs the bill soon, as be is expected to do, the trains could be running again by the end of the week. The president of the railroad, Bruce C. McIver, has said that service could be resumed 48 ours after a return to work.

## France Orders Abdallah **To Be Tried in Killings**

dent

By Edward Cody Washington Post Service PARIS — A French court ordered an accused Lebanese terror-

ist on Wednesday to stand trial for complicity in the 1982 assassinations of a U.S. military attaché and an Israeli diplomat in Paris. Georges Ibrahim Abdallah, 35,

also was ordered to be tried on charges of complicity in the attempted assassination of a U.S. consul at Strasbourg.

A Justice Ministry spokesman said that the trial on the three charges simultaneously is likely to start next month. The decision marked an impor-

tant legal step in U.S. efforts to guarantee that Mr. Abdallah is not released as part of a deal involving hostages in Lebanon.

The United States has entered the case as a civil plaintiff, The decision to try Mr. Abdal-

lah, despite reported threats of renewed terrorism by his supporters, follows by two days the arrest in West Germany of the brother of another Lebanese prisoner who is plain. held on suspicion of terrorism and whose release has been demanded in exchange for two West German

hostages in Lebanon. A French official said that no connection has been discovered between the two cases.

Mr. Abdallah, a former teacher from the Maronite Christian village of Kabayat in northern Lebanon, killings, Mr. Abdallah will be tried en in French custody since October 1984. He turned himself in assassination in Strasbourg of Robthen in Lyon, telling the French police be feared be was about to be killed by Israeli or U.S. agents. He was sentenced to four years in prison on charges of posse weapons, caplosives and false passports, as well as association with criminals. The French authorities have speculated that Mr. Abdallah leads the Lebanese Armed Revolutionary Factions, an underground by the defendants. group that has claimed responsibility for a number of terrorist attacks and been blamed by officials of several countries for other attacks. uity of a 1982 New Jersey Law, rei school prayer, requiring that public schools permit students to observe one mixute of silence daily "for quiet and private contemplation and introspection."

While the New Jersey law was blocked by federal courts soon after its enactment, the action Tuesday could set the stage for a major test of such "moment of silence" laws, which have been adopted at one time or another in about 25 states, including New York and Connecticut.

The court said it would hear an appeal of a federal appeals court decision that struck down the New Jersey law as an unconstitutional establishment of religion. The appeals court held that the law had a thinly disguised purpose of facilitating prayer. The Supreme Court, which has banned organized prayer in public schools since 1962, has left unclear what steps school officials may take to accommodate children who want to pray on their own.

# Capital **Growth Resources**

Nixdorf attained its growth target in 1986 by lifting revenue 15 per cent to DM 4.51 billion. But for adverse currency movements affecting the conversion of foreign sales into D-Marks, revenue would have increased by 21 per cent. So for yet another year, Nixdorf again outpaced the industry average.

Our objective in 1987 is to stay firmly on the growth path. With orders on hand totalling more than DM 4.43 billion, we're off to a very good start. As the year began, orders on hand were up by 13 per cent on the level a year ago. This figure was also affected by adverse currency movements. In preparation for ongoing

expansion, we again kept

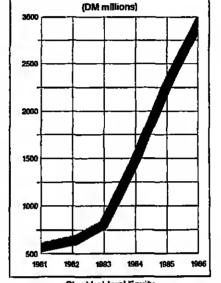

capital expenditure high in 1986: Besides recruiting and training an additional 2,300 personnel, we invested DM 600 million in fixed assets, and DM 420 million in research and development.

# Capital Financial Resources

Pursuing growth on a firm financial base has always been a Nixdorf principle: Our equity ratio of more than 60 per cent says everything. Our financial resources allow us to continue business expansion while retaining our independence.

That's one advantage. Another is for you the customer to ponder; after all, this exceptional financial base is also an assurance that Nixdorf is a dependable, long-term partner who will stay with you into the future. We nurture this partnership by sustained and substantial capital investment in fixed assets, research and development, and ongoing training of our people. We intend to seize every opportunity for expansion in

Stockholders' Equity our established markets, while opening up additional revenue sources in new growth markets: With innovative applications like CAD/ CAM solutions and telecom products.

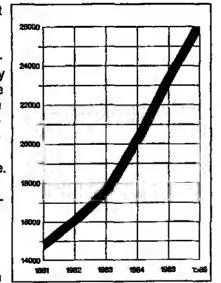

Page 3

WENNING MITTE

# Capital **Competitive Resources**

People are our most important asset. Our competitiveness depends essentially on their skill and commitment. This explains why we invest so heavily in personnel training. We have to: 7 out of 10 of our workforce of 25,600 people are employed on customer support activities, where their qualifications make all the difference. We're also deeply committed to vocational training for newcomers to the industry: in 1986, the number of Nixdorf trainees rose by 23 per cent to 1.800.

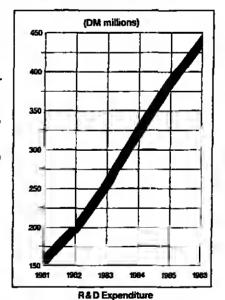

This year, we plan to take on another 2,000 personnel, chiefly to consolidate Nixdorf's Another of our competitive traditional strengths in customer service and software development. If there's one single attribute that gives us the edge over the competition, it's our dedication to meeting customer requirements. It's this that guarantees Nixdorf users a lasting and successful partnership.

strengths is our in-depth knowledge of vertical industries. As a 'general contractor' for information technology solutions, this industry expertise gives us the ability to understand every customer's business and offer each a system suited to their needs. Our aim is to become Europe's Number One system supplier providing users with total solutions, complete with hardware, software and comprehensive services.

# Capital **Innovative Resources**

Converting new technologies into innovative solutions is a Nixdorf tradition. And this is based on a long-standing company commitment: to provide the end-user with all the benefits of computer power. Nixdorf takes "raw material" chips, for example, and customises them creatively to provide end-users with information technology in the form of future-oriented systems. These systems extend the power of the computer to include word processing, graphics and voice communications; they encompass multifunctional terminals and database applications for inte- the emergence of new and grated information processing better telecom services: With in the office or factory. With its innovative resources, Nixdorf is furthering the convergence of computer and communications technology, and accelerating

products like ISDN-capable PABXs, digital telephone systems, videotex terminals and broadband switching systems for the German PTT. Our R&D expenditure in 1986 amounted to more than

9 per cent of revenue.

# Southern Units Quit **The Contra Alliance**

By Richard Boudreaux and Doyle McManus

Page 4

Los Angeles Times Service SAN JOSE, Costa Rica - Commanders of Nicaraguan rebel groups operating in southern Nicaragua have announced their withdrawal from the United Nicaraguan Opposition, the U.S.sponsored alliance of rebel groups, citing dissatisfaction with the way the coalition has been run.

Also on Tuesday, sources close to Arturo José Cruz, one of the organization's three directors, said he had decided to resign from the alliance because he believed that

## Accused Spy **Released** by Nicaragua

MANAGUA - Sam Hall, a self-styled American soldier of fortune accused of spying in Nicara-gua, was freed from custody Wednesday and allowed to leave the country for the United States.

Nicaraguan officials said Mr. Hall, the brother of U.S. Represen-tative Tony P. Hall, Democrat of Ohio, was released because he is mentally unstable. Mr. Hall, who was arrested Dec.

12, was brought to Sandino International Airport in Managna and arned over to the U.S. vice consul, Luis Moreno. The two men em-braced and Mr. Hall boarded a plane accompanied by Gary Froe-lich of Dayton, Ohio, a family lawyer who arrived in Managua on Monday.

"I just have one thing to say to the Nicaraguan people," Mr. Hall, 49, said before boarding the flight. "Tm sorry I tried to ambush them." Mr. Hall said he was well treated

during his detention, adding; "Pris-on authorities were terrific. They treated me like a human being."

He was arrested in a restricted area of the Punta Hnete air base, 13 miles (21 kilometers) northeast of Managua.

The authorities said they found maps and sketches of military tar-gets stuffed in Mr. Hall's socks, and threatened to try him for espio-

Javier Chamorro Mora, deputy foreign minister, said Tuesday that Mr. Hall was being released "so be may be taken to the United States and receive adequate treatment at a specialized institution.

He said a psychiatrist and a climcal psychologist had found Mr. Hall to be "a very unstable personality" who might "carry out acts that could end his own life." As a result, he said, Mr. Hall had been "declared exempt from re-sponsibility" for acts that "clearly violated" Nicaraguan law.

the group was unfairly dominated by the largest and most conservative rebel group, the Nicaraguan Democratic Force. A second leader of the rebel alli-ance, Alfonso Robelo Callejas, also

complained publicly Tuesday about the Nicaraguan Democratic Force. He charged that it was attempting to take control of the en-tire rebel movement. "An alliance requires a mini-mum of cooperation," Mr. Robelo said. He said that since rebel com-

manders operating in southern Nicaragna have seen no cooperation, they see no sense in staying in the alliance.

Other officials said that his comments referred to the small amount of U.S. aid that had been allotted to the faction.

The withdrawal of the rebels operating in southern Nicaragua, known as the Southern Front, from the alliance is a severe blow to the rebels' prospects, according to re-bel officials. The officials said it means that those units, with as many as 2,300 troops, will no long-er coordinate military strategy with the larger Nicaraguan Democratic Force, which fights mostly in northern and central Nicaragua. Along with Mr. Cruz's reported plans to resign, it also means that the rebels, who are known as contras, no longer can claim to speak with a unified political voice. This was one of the Reagan administration's aims when it pressured the

rebels to set up the United Nicaramembers of either party can reguan Opposition in 1985. The seven commanders of the member. Some arms-control specialists contend that the ABM treaty does not allow the deployment of new early warning radars of this type ounside of the United States and the Soviet Union.

New Tork Times Service

The Americans contend that the United States is not deploying new radars, but modernizing old ones. These arguments have also been presented in the Danish press.

Raymond L. Garthoff, one of

the U.S. negotiators of the 1972. treaty, has been quoted by Danish news organizations as raising questions about the legality of the new radars. Mr. Garthoff said he had told the Danes that Article 6 of the treaty limited new radars to the periphery of the national territory. The Danish press has also referred to a U.S. position paper of 1971 saying that the United States would not be able to replace its existing radars in Greenland and Britain with new large phased array radars, which use advanced comnuters and electronics to track mis-Siles

The United States contends that the paper has no legal significance because it was never commu ed to the Soviet Union.

Last week, the Danish press took note of a statement by the U.S. Air Force that also raised legal questions about the Greenland radar. The statement, submitted in 1980 to the Senate Armed Services Committee, said the air force had initially rejected the idea of building the Greenland radar, partly because of "potential ABM treaty conflicts." The air force later changed its mind, and its early statement had been generally overlooked until recently.

In Denmark, the Socialist People's Party and the Left Socialist Party have been pushing the radar issue, calling for an independent commission to look into it. The larger Social Democratic Party, an opposition party that makes up about a third of the parliament, has been more cautious.

The transit authority for the sixth day in a row reported extensive delays throughout its electri-fied rail network, and miles of above-ground track were out of service because of low ter component failure and the lack of a

de-iting system\_ Transit police were ordered to maintain crowd control at subway stops while station attendents stopped commuters, some of whom waited for as long as four hears to catch trains, from entering turn-

The federal government an-nounced Tuesday that money would be allocated for the purcha of de-icing equipment for the subway system.

## **New Inquiry Planned** for Palme Case

STOCKHOLM - The Swedish government, faced with a growing dispute between the police and prosecutors seeking the killer of Prime Minister Olof Palme, yielded Wednesday to opposition pressure and announced a parhamentary mquiry into the case.

"We have agreed that a parliamentary inquiry should look into the circumstances of the investigation," Mr. Paime's successor, Ingvar Carisson, said after meeting with the leaders of the opposition. Earlier this week, all three leaders in the center-right opposition coalition called on Mr. Carlsson to set up a political inquiry after an argument broke out betweeo Stockholm's police chief, Hans Hohner, and prosecutors assigned to the case.

iows Bible Mr. Carlsson declined to comment on radio reports that a plan had been discussed by the party leaders to remove Mr. Holmer and llegedly Seg the chief prosecutor, Claes Zeime, from the inquiry. Mr. Zeime is ou leave because of illness.

Political sources said the new inquiry was a final attempt by Mr. Carlsson to stop the feuding. They said the inquiry would be aimed at trying to restore the image 20 persons suspected of having of the country's police force, which has suffered badly from the public quarreling and the failure to find

# In Indonesia, Questions on Length of Suharto's Rule

By Barbara Crossette New York Times Service

JAKARTA --- When President Suharto announced last fall that he would seek a fifth term in office in 1988, he focused attention on a question that cannot be publicly debated in Indonesia: How lone can - or should - be stay in power?

"This president could have gone down in our history as a demigod," said Slamet Bratanata, a former government minister, reflecting the opinion of those who think it is time for a change. "Instead we have the tragedy of a man becoming a hostage to power." The head of Mr. Suharto's politi-

cal party says there will be oo discussion of succession until "after 1992," a year before the end of his fifth term. By then, Mr. Suharto, whose

power base rests on traditional Indonesian deference to kingship, a sophisticated political machine and the armed forces, would have been ident for more than a quarter of a century.

little Mr. Suharto, 65, has reshaped Indonesia, a once-volatile nation, into a country closer to his own image: withdrawn and conserva-

Some people who know him - a small circle that generally excludes foreigners - try to draw parallels between his personality and that of the U.S. president, Ronald Reagan. Mr. Suharto's beliefs, formed early, are firmly fixed. He is socially tra-

Subarto

ditional, and strongly and instinctively anti-Communist. He reads But comparisons with other

leaders have little meaning because Mr. Saharto's character is deeply rooted in the singular, mystical society of the island of Java, his birth-"The president had only a few years of school," Mr. Bratanata

said. "If you bring him parables Javanese puppet theater.

"It's not that we don't have donesian scholars say. Mr. Sukarno al unity, now ask why, when the enough parables and legends," he was a spellbinding nationalist and dangers of unrest seem to have re-said. "It's just that they are getting internationalist who helped to ceded, the limits of expression stay out of date.'

Mr. Bratanata is a member of the and who was, as its leader, pre-Petition of 50 group, named for a pared to take on the industrialized proposal in 1980 by a dissident nations. Mr. Subarto gradnally pushed him from power in the midorganization of military officers, former civil servants and Islamic 1960s, amid a violent purge of supleaders. They asked for more de-mocracy and alleged that Mr. Suposed leftists, many of them ethnic Chinese harto was using the military for political purposes.

Mr. Bratanata is among those who believe that Indonesia must begin putting a new generation of eaders into place now if the counto Javanese spiritual advisers while try is to continue to develop. They waiting for things to happen in question whether Mr. Subarto, their own time." whom Mr. Bratanata described as "a simple man," can complete the and admirers alike with remarkable achievements in stabilizing and de-

## Lagos Tells Embassies to Move by '89

added that the United States and offensives.

LAGOS - Nigeria has surprised diplomats in Lagos by asking them to move their embassies by 1989 to Abuja, the planned new capital, which is still in an early stage of construction, diplomats said.

In a brief note sent to embassies last week, the Foreign Ministry said the federal government would be moved to Abuja by 1989 and expected the foreign missions to be there by the same date. Abuja is about 500 miles (800 kilometers) northeast of Lagos.

will Refuse for

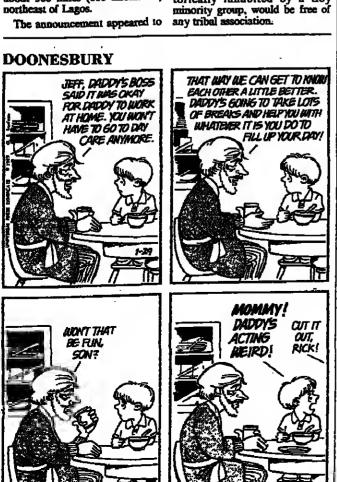

deadline was far shorter than their previous estimates. The multibillion-dollar Abuja project was begun in 1976 but the sharp decline in Nigeria's oil income and four changes of govern-ment have caused constant delays. Lagos is close to the heartland of the Yoruba people, one of Nigeria's three dominant ethnic groups. Ad-

vocates of the project have con-tended that Abuja, which was his-

## An Economic Tinderbox

Leaders in Western Europe and Japan have a good idea of what must be done to right the yawning imbalances in world trade and money flows. Thanks to unsubile signals from U.S. Treasury Secretary James Baker, they are also beginning to understand the dangerous consequences of continning inaction. But this does not mean that the group of five, meeting early next month, can achieve an agreement with teeth. For in each country teeth would bite into powerful economic interests. That is something that none yet dare do.

Page 6

Japan and Europe sell America about \$100 billion more in goods and services each year than they buy. They have kept the tions see no better place to invest their savings, in part because their governments are eager for American markets.

Americans get computer chips and cham-pagne in return for handsomely engraved certificates. If Japan and Europe are foolish enough to consider it a fair trade, wby is Mr. Baker trying to change their minds?

Several reasons. Those certificates -Treasury bills, stocks, mortgages - are claims on wealth that must some day be repaid, or be depreciated away in a general inflation that would burt Americans as much as foreign owners of dollars. A second worry is that Congress will heed the pleas of American businesses and erect far tougher barriers to imports. Weak indus-

tries would be protected, reducing American productivity and living standards. The immediate threat is that foreigners will cool to new dollar investments and rush to other currencies. No one knows what would happen in a crisis, with holders of trillions of dollars heading for the exits. But almost everyone would expect a world re-

cession cansing great, lasting damage. That is why many analysis cheered when Mr. Baker talked down the dollar by a few points. He demonstrated the vulnerability of Japanese and European export interests and the risks of holding hundreds of billions in dollar-denominated assets. But analysts and leaders alike realize that to avoid. a real crisis, Japan and Europe must absorb more of their own productive capacity by stimulating internal demand. For its part, America must reduce its thirst for foreign

capital by reducing the budget deficit. This is, more or less, what leaders of the big five have already agreed to do. But no one is in a hurry to be first with tangible policy changes. Cutting the U.S. budget deficit is obviously difficult, particularly with a president hostile to tax increases. And while spending more at home may not seem as difficult as belt-tightening, weak governments in Japan, West Germany, France and Britam have no taste for taking on their exporters' lobbies. The world economy crackles, dry and dangerous, as Washington, Tokyo and Bonn fiddle.

## A Democrat in Manila

On the left, zealots thirst for martyrs and shootings, the stuff of revolution. So what does the president of the Philippines do? She opens her palace to fist-shaking demonstrators and orders her cabinet ministers to greet them in an arms-linked buman chain of bureaucrats, businessmen, students and ouns. One can hear revolutionaries fuming at this stratagem, so obviously calculated to win votes in next Monday's plebiscite on the constitution framed by Cory Aquino's year-old government. One can hear the right-wing reactionaries as well, bemoaning their adversaries' failure to produce chaos.

Last Thursday the police fired into a crowd of 10,000 demonstrators, killing 18 and wounding scores. That was the usual way of dealing with protesters during the Ferdinand Marcos era. Indeed, the shootings occurred at the scene of bloody antigovernment riots in 1983. But Mrs. Aquino refused to play by the old rules. She admitted error and ordered an inquiry.

To those on the right, holding the military accountable for such offenses is akin to treason. In the Marcos era soldiers were above the law, even when Benigno Aquino returned to Manila's airport in 1983 to his death. Doubtiess nostalgia for those good old days ignited this week's attempted ing "Marcos Forever!" seized a television station and tried to capture an airfield. The mutiny was quickly contained by the supposedly feeble Aquino regime.

There may be plenty to criticize about Mrs. Aquino. Perbaps she is mistaken in believing she can negotiate peace with Communist guernillas; yet she is right to try, carefully. Perhaps she is wrong not to have honored pledges of land reform; maybe this will come after next week's vote.

But her achievements cry out for applause. The Philippine Republic is now the liveliest democracy in Asia; more remarkably, the armed forces are committed to upholding that freedom. For this she shares credit with General Fidel Ramos, the chief of staff, and a superlative defense minister, the retired General Rafael Ileto.

A decisive victory for the new constitution would give momentum to the democratic cause and confirm Mrs. Aquino's title as president until her term expires in 1992. Hence the frantic attempt by far left and right alike to discredit her by blaming her regime for the disorder that each is trying to provoke. Their schemes might succeed if only Mrs. Aquino played by the rules. Her refusal to do so marks her as a real revolutionary, a genuine original and a democrat. - THE NEW YORK TIMES

flight \$47, and West German citizens are kidnapped in Beirut. The United States requests extradition of the sus-pect, and Americans in Beirut disappect, and Americans in Beirut disap-pear. France sells weapons to Iraq, and French citizens are kidnapped in Beirut. The United States bombs Lib-ya with planes flying from British bases, and British citizens are kidnapped and murdered in Beirut.

Recent events have proved that some Middle Eastern countries could easily do without their expensive embassies in the West. A single kidnap-ping ring in West Beirut is apparently much more effective than a hundred diplomats. Any time the terrorists want to blackmail a Western government, they simply grab one of that country's citizens in West Beirut. This flow of human ammunition

## **Rails Can Lead Out of Southern African Deadlock**

LUANDA, Angola — The hlack countries of southern Africa are stepping up efforts to reduce economic dependence on South Africa,

which uses it to assert "regional superpower." .. Most of the newly independent countries are hurting badly through a particularly unfavorable combination of circumstances: their own policy mistakes, a long drought, the price collapse of major export earners like oil and copper and, in the cases of Mozambique and Angola, the cost and disruption of guerrilla wars.

South Africa compounds their troubles to gain leverage against support for its black resistance. The key to escaping the worst of the pressure has been identified as two railways, one ending in Mozambique's Indian Ocean port of Beira, the other in Angola's Atlantic port of Benguela.

They not only carry exports and supplies for landlocked countries, they were important moncyearners. With both blocked or severely limited, the countries involved are obliged to rely on South African transit or vastly more expensive routes. So reopening the Bengueta line and the Beira corridor to Zimbabwe has become a top regional priority.

This has political undertones. Angola, Zaire," Zambia and Mozambique have arranged a meeting of transport ministers to push the Benguela pro-ject. Zaire has ports, but Benguela is the best way to the sea for its mining products, so it is showing interest despite tensions between its pro-Western policy and Angola's ties to Moscow and Havana. There are rumors in Luanda that President Mobutu Sese Seko of Zaire has been asked to promote a U.S.-brokered cease-fire agreement, around the

By Flora Lewis railway, between Angola and the South African-supported UNITA rebel movement of Jonas Sa-

vimbi. Angolan officials deny any interest in a deal with Mr. Savimbi and express confidence that they will be able to secure the line militarily. But they do say that the other countries which would benefit ooght to belp. They talk of prevent-ing infiltration by UNITA from neighboring terri-tory and of using diplomatic influence on the United States and the Commonwealth.

One sign of how touchy the subject is comes in the suggestion from the Angolan interior minister. Manuel Alexandre Rodrigues, that to the extent that U.S. arms for UNITA are going through Zaire, as reported, they must be smuggled without the permission of President Mobutu. In the cir-

cumstances, that is the utmost in tack The Angolan regime is opaque, Cuban-style, but

there are signs of disagreement between hard-liners and those who would like to probe for some way out of the statemate. Comments on Fidel Castro's statement that Cuban troops (now some 30,000) would stay in Angola until South Africa "is liberated" provide a glimpse.

Mr. Castro stopped off in Luanda, uninvited, on his way home from September's nonaligned summit in Zimbabwe. His speech appeared to contradict the Angolan position that the Cubans would be sent home when the South Africans pull out of Namibia and give it promised independence. Mr. Rodrigues, better known by his guerrilla name of

Kito, said "our priority has not changed." He spoke politely of Cuban help but said firmly that

Angola's policy was made in Angola. He is a Politburo member, 43, with considerable international experience. He led Angola's delega-tion to the U.S.-sponsored talks that produced the Lusaka agreement with South Africa on monitoring incursions across the Namibian border.

Other officials, not quite as senior, said flatly that there was no contradiction between Mr. Castro's words and Angola's focus on Namibia be-cause the heart of the issue, in any case, is South Africa's regime. This would be a slide toward broadening the conflict and removing what slim chance may remain for a Namibian settlement, promised year after year.

South Africa is not interested in a settlement. Mr. Castro appears in no burry to bring his troops borne, where unemployment is high. Western dip-lomats in Luanda think that Moscow has encouraged Angola to seek Western capital, but Soviet interests are served by prolonged hostiliues. Ango-la has had to pay for its arms, But the military stalemate and accompanying economic decay are a terrible burden on Angola and its neighbors.

There does seem to be a fork in the road at this point, one way leading to a chance for regional recovery, the departure of Cuban troops and a more truly nonaligned Angola, the other to perpet-uation of strains until South Africa explodes and the conflagration engulfs all involved. The rail-ways are a lifeline out of deadlock, a chance for diplomacy to overtake decision by arms.

States will do nothing. Margaret Thatcher, Helmut Kohl, sage to their citizens. While Terry Waite, the tireless An-

coup, in which anti-Aquino troops scream

President Aquino seems to have survived a second coup attempt, but the sequence cannot fail to burt her at a time when her anthority was taking a battering and she needed every ounce of political strength at her command. The coup was evidently launched by soldiers of the same military clique that acted in July; it has links to the exiled former president, Ferdinand Marcos. and to the ousted former defense minister, Juan Ponce Enrile. Again Chief of Staff Fidel Ramos saved her. Again the fragility of Philippine democracy was underlined.

In recent days two other hard blows have failen on Mrs. Aquino. Somehow - by accident? by leftist provocation? by rightist conspiracy? - government troops fired into advancing demonstrators, killing a dozen or more and raising precisely the specter of army vs. people that had dark-ened the rule of Mr. Marcos. Then political rivals released tapes of wiretapped telephone conversations in which Mrs. Aquino, speaking with aides, seemed to be breaking a piedge not to tamper with the supposedly independent constitution-writing commis-sion, as if she was acting to curry U.S. favor on the sensitive issue of nuclear basing.

## More of Kohl's Same?

The message of Sunday's West German ems to be more of the same. Chancellor Helmut Kohl is hack, if slightly chastened, for what promises to be another round of friendly oratory followed by cautious and even timid action. In other words, Bonn is unlikely to help much in making tough decisions about the international economy or East-West relations.

The tea leaves are interesting to read nonetheless, Mr. Kohl's Christian Democrats got their lowest vote since 1949. Yet he still heads a coalition with a solid 53 percent of the vote. Within the coalition, Franz Josef Strauss, the Bavarian, made probably his final bid to move to Bonn, share leadership and press foreign policy rightward. He lost, soundly. And Foreign Minister Hans-Dietrich Genscher's Free Democrats benefited from Mr. Strauss's harsh attacks; again defying predictions of their demise, they made solid gains. So did the Greens. the maverick environmentalists who say they are neither left nor right but ahead.

They seem to have put protest firmly into the West German political mainstream. Mr. Kohl's campaign pledge of "More of the Same, Germany" is likely to be borne out. All too possibly, it means not much of anything. West Germany is Europe's eco-nomic power, yet Mr. Kohl has played hitle of the leadership role that this implies. He has resisted pressure to push economic reform in the European Community, as well as pressure from the United States to stimulate the West German economy. He calls for better relations with Moscow and for arms control but does not push Washington to make the necessary accommodations on issues such as space-based defenses. Voters sent the right message when they

shunned Mr. Strauss and his "patriotic" emotionalism. They chose moderation, as support for the Free Democrats showed. Mr. Kohl's re-election gives him another chance to show that moderation need not be synonymous with complacency. -THE NEW YORK TIMES.

WASHINGTON - Will South Korea's President Chun Doo

Hwan go the way of Ferdinand Mar-

Soon Ja, have been tarnished by a major financial scandal, and political foes have charged that his younger brother, Chun Kyung Hwan, has links to organized crime figures. On a recent visit to Scoul, I asked

many people why a poll taken by a leading newspaper showed 86 per-cent of the people to be either opposed or strongly opposed to the present government and only f.6 percent to be satisfied. Nearly everyone talked about the blatant corruption of "this dirty regime." Corruption has been magnified by

the economic boom. South Korea's annual 7 percent growth rate is in striking contrast to the near collarse of the Philippine economy during the last days of Mr. Marcos. But one key to such rapid growth is a tightly centralized economic system that has invited abuse of power by insiders. Emulating Japan, successive Kore-

WASHINGTON - William F. Buckley Jr. contributes poor-

ly to an understanding of the role of ambassadors and the conduct of

U.S. foreign policy. ("The Ambassa-dor's Entertainment Fund," Jan. 24.)

He in effect tries to perpetuate twin

myths: that ambassadors should

primarily be expected to "sell the

president's program" abroad; and that "rich" ambassadors are needed

because government funds are in-

sufficient to cover essential repre-

sentational expenses: Both points,

while widely accepted, are wrong.

All U.S. government employees must be loyal to their president and

support his policies, but it does not

follow that ambassadors should be

They have a higher loyalty. They

should analyze for the president,

and report through the secretary of

state, all essential political, eco-

nomic and social conditions affect-

ing policy issues related to their

assignments. To do this they must

mere cheerleaders.

an military rulers have built an inte grated network of government-supported conglomerates and affiliated banks designed to give Scoul a coordinated thrust in world markets. But unlike the Japanese businessdemocratic controls, this close-knit Korean economic structure emerges from a police state and is inherently vulnerable to manipulation.

This is the first of two articles.

Leading banks and corporations were easily induced to cooperate when a finance company set up by relatives of Mr. Chun's wife concocied an audacious scheme for profiteering in promissory notes. Borrowing \$115 million from two

leading banks, the finance company made long-term loans totaling this amount to six financially pressed corporations, according to South Korean press reports. The corporations then signed promissory notes worth \$522 million. These notes were resold at this price with bank guarantees.

The case came to light after arguments developed over the division of the \$407 million in profits. It was initially exposed by the underground press. The case eventually went to the courts but received only sketchy coverage in the controlled media.

Ambassadors Don't Have to Be Rich

By John W. Tathill

please superiors at home.

Although Mr. Chun's wife was not implicated, her uncle, Brigadeet General Lee Kyu Gwang, and his sister-in-law, Chang Yong Ja, were convicted in 1982 on charges including fraud and bribery. The presidents of the government partnership, with its two banks later resigned. Mr. Lee's parole from prison has made the case a cause celebre. According to the underground press. Chang Yong Ja is in a special, plushly furnished cell.

Since opposition statements get little attention in the daily press and on television, many South Koreans rely as much on the underground press as on the controlled media. This polarized journalistic climate makes it dif-Ficult to pin down information concerning an alleged role of Mr. Chua's family in certain corruption cases.

An 83-page underground report on politics and corruption alleges that Mr. Chun's father-in-law, Lee Kyu Tong, was involved in a land scandal in which a consortium of 20 compa-nics obtained re-zoning permits that allowed the development of resorts and golf courses in the virgin Sulak and Chiri mountain areas. The underground press alleged that the Myungsung group, armed with ad-vance knowledge of the permits, bought up nearly a million acres

violations of tax laws, construction codes and forestry regulations.

No direct evidence has surfaced to substantiate charges that the fatherin-law or any other relatives were involved. Roh Tae Woo, the parliamentary leader of the ruling Demo-cratic Justice Party, dismissed the corruption allegations as "greatly exaggerated." He said that there was no evidence linking the president's fam-

ily with the Myungsung scandal. But there is a widespread public conviction that someone in Mr. Chun's inner circle must have fixed the re-zoning permits and shared in the profits. Similarly, despite a lack of evidence, Mr. Chun himself was suspected after underground press reports about several companies changing ownership. These enterprises reportedly were sold or went out of business after government prosecution for tax evasion or other offenses, only to turn up later under new names in the hands of someone close to the president. Mr. Roh denied that the president's family was involved in these changes.

When Mr. Chun came to power. according to a knowledgeable source. his brother, Chun Kyung Hwan, rap-idly emerged as the man to see in Seoul for favorable treatment on tax matters, government construction contracts and import licenses. He was named as director of the government's rural public works program, Saemaul, which has a \$118 million annual hudget. Saemaul's failure to present a detailed budget to the National Assembly has led some legislators to question whether "Little Chun" has misappropriated funds.

On several occasions, most of them unreported, opposition members of the National Assembly say they bave tried unsuccessfully to get "Little Chun" to testify. Once it was an-nounced that he had suffered a beart attack, although a U.S. Embassy offi-cial who called to extend his sympathies found him on the golf course.

The writer is a senior associate of the Carnegie Endowment for Internation-al Peace. He contributed this comment to The Washington Post.

seives: they'll leave us alone. But the didn't. Terry is living proof of that. Other Americans were also ratio-

nalizing their decision to stay. Professors at the American University told themselves that the Lebanese wanted them there to educate their youth. The men who dragged Thomas Sutherland away obviously did not subscribe to that argument. Relief workers believed that their efforts on behalf of the needy and homeless showed that they cared. Father Lawrence Jenco found out how little that counted. We were all wrong.

"But what about the poor Lebsnese and Palestinians?" some people will shout. "We won't be able to give them aid, tell their story, sell them ball bearings." This is a patronizing argument that ignores the abilities of the scores of Arab and neutral Third World professionals who already carry out their duties with aplomb.

If the ego or greed of any Western--er is such that he feels that he alone can do the job, so be it. But his country a foreign policy should not. have to suffer as a result.

"What about our rights?" others will ask. "We should be able to travel where we want." Agreed. No one is. saying it is illegal to go to Lebanon. It is just stupid.

The government has a duty to protect its citizens," a few will insist. In normal times and places, yes. But Beisut in 1987 is far from normal. The U.S. government also has a duty to the rest of the nation.

Get the current hostages out. Mr. Anderson and Mr. Sutherland, in particular, have been languishing in damp hasements for some 20 months, since before the dangers were so clear. After they are out, pick up and go. Refuse to play the hostage game anymore. The terrorists won't stop. They will still find ways of inflicting their particular brand of violent diplomacy in Europe or inside the United States. The difference is that it won't be quite so easy for them.

The writer, a former CBS News correspondent in Beirus, recently completed a book on U.S. involvement in Lebanon. He contributed this comment to The New York Times.

## IN OUR PAGES, 75 AND 50 YEARS AGO

## 1912: Danger in China

PARIS - [A reader writes:] "A long familiarity with the Chinese, officials and people, and a residence in China of many years justify me in asserting that of all countries China is about the least fitted for experimentation with the republican form of government. The situation now is bad; under a republie it will be a case of confusion worse confounded. The overthrow of the dynasty and the success of the Sun-Yat-Sen clique means a period of anarchy. Then China will fall under the iron rule of some dictator or will be "pacified" by the European Powers and Japan i.e., dividing it up among them. The present crisis is but the prologue of a present trians is out are perfectly right in urging the Powers to support the Throne and strengthen the hands of the traditionalists against the revolu-tionists. What is needed in China is evolution, not revolution."

**OPINION** 

# **Coming Soon: The Next Hijacking Show**

jacked and the passengers, many of them American, will be taken hostage. If not next week, then the week after

or next month or the month after that, But it will happen, for two reasons.

Terrorism, old in warfare, has been developed by nationalist and carefully ourtured religious fanaticism to the point where it is a weapon not simply of local resistance but of world importance. The terrorists have discovered that it is far more effective to select victims from the nationals of foreign powers rather than concentrate merely on their specific enemies.

Nothing gets them more attention and blackmail power than the horror of an airplane hijacking, not even the kidnappings taking place now in Beirut. And most of the victim nations have shown that they crack when hostages are taken. The United States cracked to Soviet hostage-taking by trading a Soviet spy for an American newsman. It delivered blackmail arms to Iran, sponsors of the killers of American marin

Pakistan has yet to put hijackers cap-tured five months ago on trial or even tell the world who they are. Israel cracked by turning over 1,150 prisoners for three Israelis.

HET I GUAR

Italy let a hunted terrorist escape, The French dealt aimost openly in

trading with terrorists for their hostages. Anybody who says this contempta-ously is a fool. We all know that were one of our family taken hostage, we would want only one thing of our government - rescue. But the surrenders do lead, bitterly, to more hostage taking and more pain for more families.

Once again the frightened faces of the victims will appear on television screens the world over. Once again the captors will orchestrate their own performance on the television stage, screaming and waving automatic rifles one day, presenting their demands and their grievances as winningly as they can the next.

Once more, disgusted viewers and harassed governments will say that the press, particularly television, is terrorism's tool and is endangering the lives of the hostages. Louder than ever will come demands for some form of regulation --outright censorship, barring reporters and cameras from the scene, or sweeping press self-restriction,

Television producers and correspon-dents and newspaper people talked it all over at a meeting here organized by the Poynter Institute for Media Studies, which owns The St. Petersburg Times, one of America's good newspapers.

Letters intended for publication should be addressed "Letters to the Editor" and contain the writer's signature, name and full address. Letters should be brief and are subject to editing. We cannot be responsible for the reason of unsolicited manuscripts.

## By A.M. Rosenthal

The questinn on our minds was whether the long, wearing hijacking cov-erage in Beirut in 1985 had endangered the lives of the hostages or made freeing the captives more difficult. To his own

professional credit, Parker Borg, a State Department anti-terrorism expert at the time, said that the answer was no. But during next week's nr next

month's hostage taking, the debate will start all over again. Television does not enjoy all the First Amendment protections - I believe it should - and the ressure will be heavy. There are things that can be done that

would not damage the right of television to present the news fully and would help prevent it from becoming the most important bostage of all.

Occasionally the gunmen get control of television by being broadcast live, spouting whatever they wish to spout. This is exactly as if gunmen marched into a newspaper office and dictated to reporters and editors every word that was to appear in print. Pausing to see and edit tapes in advance is no more an act of censorship than a newspaper edi-

offensive. In addition to vilifying the cardinal, Mr. Will makes vituperative

criticism of the Vatican, the present

pope, the Catholic clergy and the politi-cal policy of the Catholic Church. He

ions of angry and irresponsible men.

tor looking at a story before it is printed and using something called judgment. Terrorists feed hungrily on chaos and

press-television mob scenes create the hysteria they seek. Television could help by using correspondents but just one or two camera crews, sharing film but oot the reporting or commentary.

Almost all American television anchormen and producers are skilled, experienced and serious and could hold down top jobs on newspapers; greater praise hath no editor. But sometimes the job of interviewing captors is turned over in television personalities who are simply entertainers and treat the captors as statesmen: "Do yoo have a message for President Reagan?"

These steps would counter some of the intricately planned manipulation by the terrorists. But television and press ng will continue. It won't kill us.

Neither will it change the fact that the agonizingly drawn-out pain of captives and family has come not from television cameras and anchorpeople or newspa-per reporters but from the faltering will of governments and the men you see waving their rifles and sneering at the world, next week or next month. The New York Times.

## LETTERS TO THE EDITOR

The Vatican, Israel and a Hard-Hitting Columnist Regarding "Cardinal's Pilgrimage Covers Something Sinister" (Jan. 16): minor masterpieces — for instance, one a few years ago on children with Down's syndrome. Here, I thought at the time, was a man of real humanity. What, then, The opinion column by George F. Will concerning Cardinal John O'Con-nor's recent visit to the Holy Land is struction will pass. lately - except Mr. Will.

Arlington, Virginia. on the Catholic Church? The point Mr. Will makes is as errone-

ous as his supporting "facts." The Vatican is the only state that continues to honor the original agree- the world." Yet if any of the world's ment for the acceptance of Israel as a peoples are well versed in suffering, it is nation. That agreement calls for internationalization of the city of Jerusalem and for repatriation of, or compensation for, the Palestinians. The Vatican does not have diplomatic relations with Israel in the formation of a chosen people. because neither of those two conditions has been met. The United States, Britain and other countries continue to honor the first condition, maintaining only consular offices in Jerusalem, but they ignore the second issue about Palestinian rights and they maintain full diplo-

matic ties with Israel Jewish gravestones were not used by Jordan to pave roads, but an Arab cemetery was buildozed to create Independence Park in Jerusalem. Religious freedom in Israel exists only in the minds of some, since Christian and Moslem Arabs from all Arab countries except Egypt are refused entry into Israel. I agree with Mr. Will that the cardi-

nai's visit disclosed something sinister - but not in the Vatican.

MARIE PECK. · Amman

In the past I have admired what ap-peared to be the lucidity of Mr. Will's disputed questions, international or oth-thought. Some of his columns have been erwise, can ever be resolved. cal, loyal debate - without which no PEGGY RIGAUD. Montpellier, France,

> Three cheers for George Will! He has the guts to bring into the open the long history of the Vatican's malevolence to-

Mr. Will suggests that Jews are incaward the Jewish people. Cardinal O'Connor's condescending pable of comprehending how the suffer-ings in the Holocanst could be a "gift to tone and utterly incomprehensible remark that the Holocaust was a gift to the world reflect his church's politics. the Jews, and in the Biblical context. There were Jews in Jerusalem 3,000 their sufferings are not seen as proof of years before the first followers of Christ began calling themselves Christians. EDWARD E. DORSON.

More shocking is the technique Mr. Will uses to criticize the Catholic Mr. Will concludes his criticism of Cardinal O'Connor and the "sinister" Vatican by saying: "Israelis have heard [the cardinal's] alibi before: He was only Church: insignation. This has traditionally been the weapon of the racist and the bigot. The Vatican has oever given Israel diplomatic recognition. Here is a policy that merits debate. But no. Inobeying orders." Apparently Mr. Will does not follow developments in Israeli stead we are told that behind the fact pobtics closely. The head of the Israeli central command commented recently, And who is trying to resurrect the "hoary myth" of collective Jewish guilt? I have not beard anything like that from anyone in the Catholic Church. I don't about the shooting of a 14-year-old at a refugee camp, that the Israeli soldiers appeared to have "obeyed regulations with regard to opening fire." Cardinal O'Connor's statement about

Gilleleje, Denmark.

believe I have beard it from anyone at all the Holocaust being a gift of Judaism to The column does a disservice to the the world is indeed absurd. However, to Jewish state, because no cause is served ouc familiar with the issues, it is clear by support which can only be seen, by that Mr. Will's object is oot information. His column is typical of pro-Israel rhetoric, in that its intent is clearly to those who have an intelligent interest in the question, as embarrassing. Nor does it serve the interests of intelligent, logiarouse emotion with little reference to 

## The Great Picture on Page 4 **Knocks Phones Off the Hook**

#### By Joseph Laitin

ism is a mirror of life around us. The question is often a matter of taste, sometimes of ethics, always of truth. How far an editor should go to protect the reader has been an ongoing in-house debate since the birth of the free press. I am not sure there is an answer, except

to treat each incident separately. The incident now at hand is a photo of the Pronsylvania state treasurer, R.

#### MEANWHILE

Budd Dwyer, who executed himself on camera during a press conference. The photo, taken at the split second of bullet impact, appeared in The Washington Post on Friday. The newsroom phones went off the book. (A different picture, showing Mr. Dwyer with the tip of the barrel in his mouth before he pulled the pistol's trigger, appeared on Page 2 of Friday's International Herald Tribune.) Mind you, there was not nne single protest against the use of a photo the

fact. There is no acknowledgment, for instance, that the Vatican's refusal to accept Israel's occupation of Jerusalem is in accordance with international law, the Geneva conventions and the majority of international public opinion. KRISTIN BROWN.

#### Lend the Food Mountain

In response to the report "Mounting Food Surpluses Threaten to Push EC Into Bankruptcy" (Dec. 30):

As Europe's food mountains get bigger, billions of dollars are consumed in waste and storage. Reforms centered around production cuts, quotas, lower guaranteed prices and funds to subsidize ales or free distribution offer solutions that are politically or economically unrealistic. What can be done?

Free distribution of food can be justified only during famines. Food-for-work projects, as practiced by the Unit-ed Nations, are inefficient.

Why oot offer the food surpluses as interest-free loans? A country in need borrows and removes the agreed amount and commits itself to deliver back like quantity and quality in five, seven or more years. Both lender and recipient are bound to secure significant benefits. When accumulation of goods oo longer contributes to economic growth, global solutions should be tried. Even countries close at hand -Poland, for one might look at the idea with interest. K.J. LOROCH

Hamburg,

WASHINGTON - Good journal-ism is a mirror of life around up tragic aftermath of the Philippine farmers' demonstration near the presidential palace in Manila, where they were fired on by troops. L-

ste ral

There is a long history of editorial decision, or indecision, on when to print details or photos of news events that might turn the stomach of readers. The two most often used arguments against publishing unpleasant details are that readers want to enjoy their breakfast and that children should not be exposed to sordid tragedy. The latter argument does have validity, but when you consider the violence tolerated every day on television you wonder about the agenda of those who present this argument.

Looking back over the years, I recall the photn that made Robert Capa famous: a loyalist rifleman in the Spanish civil war catching a fatal bullet in midair as he was leaping for cover. Editors said

was a memorable picture of an im-promptu sidewalk execution of some dreaded secret policemen, their eyes in wide-open surprise and hair straight up as if they had just received a thousandvolt charge. It was widely printed and

hailed as great photo jnurnalism. It can be argued that those pictures were taken during war or revolution or uprising, which makes a difference. What appeared nn page four of The Post was a suicide. That is true, and there most certainly is a difference. But I would suggest that the real reason why the other photos were viewed as great photo journalism, and not as horror pic-tures used for exploitive purposes, is that they came from distant places that, as everybody knows, are inhabited by foreigners. This was home, which calls for a different measuring rod for taste,

ments to be made. For instance, was the picture essential to the story? There is a question of both ethics and taste inolved in these decisions, and sometimes is occessary for a conscientious editor to make a decision that forgoes taste.

This is a matter that has to be dealt with on a case-by-case basis, and I am oot wise enough to offer any meaningful guidelines that would hold up over a period of time. In this instance it was a close call. But I can see how any twofisted editor, facing a deadline and an agonizing decision, would have felt that he had to go with it and apologize later, if he felt any pangs of conscience. And oext time face the problem anew.

The writer is ombudsman of The Washington Post, from which this is adapted.

Great picture" and printed it. During the Budapest uprising there

Maybe so, but there are other argu-

# 1987 good reasons to see Thailand this year.

Majestic temples and magnificent elephants, glittering roofs and garlands of orchids, enchanting people and exotic cuisine... one could write a long book about the land they call Thailand (and many seasoned travellers have). And never has there been a better year to see Thailand than 1987. For this is Visit Thailand Year in the Land of Smiles.

Among the kaleidoscope of festivities planned for 1987 you should try to catch some of these:

Feb. 13-15. Chiang Mai Flower Festival A million blooms, a thousand smiles. One of the unforgettable moments of your life.

April 13. Songkran Festival. A nationwide water festival celebrating the Thai Lunar New Year.

May 9-10. Bun Bang Fai Festival. "Bang!" indeed. Held in northeast Thailand, a fireworks show like no other you've ever seen.

Oct. 16. Royal Barge Procession. An armada of brilliant colours, pageantry and rare splendour not to be missed.

Nov. 5. Loy Krathong. Celebrated nationwide, this is Thailand's loveliest festival.

Nov. 14-15. The Elephant Round-Up. Ever seen 100 elephants enact a medieval War Parade? You will if you come to Surin in northeast Thailand for this extraordinary display.

Nov. 22. Bangkok Marathon. A major sporting event commemorating His Majesty the King's 60th Birthday Anniversary.

Dec. 15. Light and Sound Presentation. A glittering occasion to be held at the Royal Grand Palace and the Temple of the Emerald Buddha.

These are only a small selection of the truly stunning special events that mark 1987 as Visit Thailand Year - a year full of festivities, flowers and fireworks. Make your holiday plans now. And make sure you fly on Thailand's own airline, Thai International

Where the exotic sensations that are Thailand start from the moment you step on board

A new study showed that the experimental drug RU-486 was highly effective at controlling menstrual cycles in women and preventing pregnancy in female monkeys. There were no apparent adverse side effects.

although past trials showed some women experienced excess bleeding. "This is a preliminary study, but it suggests that there's a big potential for this drug as a contraceptive agent," soid Dr. Lynnette K. Nieman. who led the study at the National Institute of Child Health and Human Development. RU-486 is a synthetic steroid that blocks production of the hormone progesterone, needed to maintain a fertilized egg in the womb-

#### **Fatty Acids Linked to Heart Disease**

LONDON (Reuters) - Heart disease may stem from a deficiency of essential fatty acids in the diet and not excess consumption of saturated fats, a new study by scientists in Scotland suggests. A report on a study involving more than 6.000 people, published in the British medical journal The Lancet, said that people who had suffered from beart attacks or pains had less essential fatty acids in their body fats than other people. Essential fatty acids are contained in fish and vegetable oil, while saturated fats in the diet come mainly from animal food.

"Until now the evidence has appeared to suggest that heart disease is caused by eating too much saturated fat." said Michael Oliver, professor of cardiology at Edinburgh University. "Our research suggests it is the deficiency of polyunsaturated fat which is important."

#### **Kare Animal Rediscovered in Brazil**

NEW YORK (AP) - The thin-spined porcupine, feared extinct, has been rediscovered in Brazil's rapidly disappearing Atlantic coastal forest. The animal, *Chaetomys subspinosus*, is about the size of a small cat and is covered with soft, brown spines that resemble the bristles of a broom but are more flexible, according to Russell Mittermeier, vice president of the World Wildlife Fund-U.S.

The animal, was first described in 1818 and last seen in 1952. Researchers know so little about it they cannot even be sure that it is a true porcupine. Mittermeier said. "The scientific interest of the beast is that no one is sure what it really is." he said.

## **U.S. Drinking Habits Show Shifts**

NEW YORK (NYT) - About two-thirds of adult Americans drink alcoholie beverages regularly, but 10 percent of the drinkers down half the total alcohol, according to a new study. In addition, the age at which people begin to drink is falling: "In 1984 more than 30 percent of high school seniors reported having tried alcohol by age 13," according to the Statistical Bulletin of the Metropolitan Life Insurance Co. Nationwide, Americans over 13 drank beverages containing an average

of 2.65 gallons of alcohol in 1984. Consumption was highest, 5.34 gallons a person, in Washington, D.C., although purchases of low-priced liquor by non-residents accounts for part of that. Consumption was lowest in Utah, at 1.53 gallons a person.

Since 1968, beer has been the main form of alcohol consumed in the country, and 51 percent of alcohol consumed in 1984 was in beer.

# Saint Laurent, the Giant

**Paris Fashion** 

By Hebe Dorsey International Herald Tribune PARIS — Nothing like a nice surprise! The fashion press ex-pected to all bun bury Yves Saint Laurent, whose talent tately had seemed distinctly on the wane. Instead, the designer demonstrated Wednesday that when he wants, nobody can touch him. In a beautifully edited and re-

strained collection, Saint Laurent proved once again to be the giant in his field. His fans, including Catherine Deneuve, Paloma Picasso and - in a rare fashion appearance -Danielle Mitterrand, heaved a big Sigh of relief and appleuded grate-fully. Also there was the designer Claude Montana, acknowledged leader of French ready-to-wear, who was moved to sears.

This takes nothing away from the new name in Paris, Patou's Christian Lacroix, but it is as if the two designers were standing at ei-ther end of the fashion spectrum. Lacroix has the youth, the enthusi-asm and all kinds of unexplored avenues before him. Saint Laurent has said and done practically everything and all be has to do now is say it again, in his own pure, per-fected hand. But Lacroix is the future.

After the show, the designer said that he bad had fun with this collection, which was also very young from recent collections. This was achieved hy revamping the propor-

Saint Laurent stayed away from and wearable, especially the strong-shouldered suits. These had a long, new jacket with two big pocket flaps sewn sideways. They turned up in every possible fabric, from tiny checks in crisp linens and in every color, from gray to a bright purple.

But beautiful as they were, they were not the most exciting part of this show. As for pantsuits, they including the chemises and tunics, belonged to the new, upgraded Saint Laurent Rive Gauche, which Pierre Berge, Saint Laurent's pari-ner and business manager, said was definitely going to happen. This was confirmed by Léon Cligman, the French industrialist who is the largest stockholder of Saint Lauthat the house was about in abandon couture, to which, he said, controlled with great expertise,

It was a flat-chested look, with long-waisted dresses spreading out into a deep flounce, often dipping in the back. The front was quite naughty, cut all the way to the crotch. Some minis had hems cir-cled with stiff black bows. The prettiest were made of body-con-scious, waffled chiffon, decorated with tiny wavy ruffles. The feeling was very little-girl-out-to-a-party, especially when Saint Laurent circled the hips of a printed chiffon mini with wide satin ribbon and a big side bow. The shorter dresses were newer and more fun than the long ones.

Saint Laurent, who did the bus-tle well before anybody else, did not bother with elaborate constructions, but just hinted by putting big bows at the bottom of some dress-es. The flowered taffeta gown with big side poul was his only concession to current Paris trends.

Fabrics included soft chiffons often mixed with stiff lace. Crepe was used for long, draped gowns that looked very familiar, even if Saint Laurent sometimes mixed two colors in the same dress. Colors were refined with all kinds of subtle mélanges - such as purple and salmon or red, pink and shrimp. Khaki, used for a chiffon evening dress, was new and sophisticated.

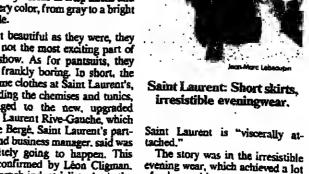

At Lanvin's, Maryll Lanvin, the wife of the family's son and heir, Bernard, has taken over with honest results. Although largely influ-enced by Lacroix's pouls, she is moving toward her own pretty and feminine signature. A beautiful woman who travels in high society, Lanvin knows that women dress ---or should dress - for men. Hence the soft pique dress, topped by a delicate pearly bolero and short and sexy strapless dress, exposing a lot of bosom.

Lanvin also displayed an unex-pected sense of humor in a dress of red and green satin, its bodice overflowing with a huge bouquet of anemones. Hats were mad concoctions, with some Edwardian-looking layers of black tulle.

Guy Laroche, who counts Bernadette Chirac and Claude Pompidou among his fans, is a nice man who makes nice, uncomplicated and often quite pretty clothes. There is nothing in this collection that could tached." The story was in the irresistible evening wear, which achieved a lot of volume without resorting to ruf-fles or petticoats. The secret was in the cut, and even chiffon, usually the cut, and even some mad, red-and-black cancar ruffles.

an element that had been missing tions, strengthening shoulders and considerably shortening skirts until they became minier than mini. the excessiveness of Paris trends with clothes that were perfectly flat

were frankly boring. In short, the daytime clothes at Saint Laurent's, rent Rive-Gauche. Berge denied

 28< United Press International NEW YORK — Prices on the New York Stock Exchange were higher late Wetnesday in very heavy trading. The market was buoyed by a firm bond market and investors' willingness to buy whenever sellers made small price concer-22 144 AFG5 444 AMCA 4204 ANCR H 4204 ANCR H 4204 ANCR H 4204 ANCR 40 "There was more nervous. "There was more nervousness today than has been apparent for some time," said Trude Lati-mer, market analyst at Josephthal & Co. "The market is soggy; trading is very choppy, and nothing much is moving it." Friday's volatility, in which the Dow climbed 64 points before ending the day with a 44-point loss, had an effect on traders, she said. "Traders saw that the market can come down as utickly as it can go up." Me Latimer soid sions, traders said. The Dow Jones industrial average, which jumped 43.17 points Tuesday to a new high, was 6 4143 1.44 10.2 14 2.49 11.5 14 1.45 9 11 2.49 11.5 14 2.49 11.5 14 2.49 11.9 11 2.44 4.2 9 200 1.44 7.5 487 4.49 19 35 22 224 4.49 19 35 22 224 4.49 19 35 22 224 4.49 27 174 1.44 7.2 147 1.45 7.2 147 1.45 7.2 Although most U.S. stock market tables in this edition are from the 4 P.M. close in New York, for time reasons, this article is based on the market at Adobe Adob pf Adob pf Advest AethLi AethLpf Atturb s as quickly as it can go up," Ms. Latimer said. She said the dollar slide was worrying some 3 P.M. Attippes 45 20 71 Attippes 45 20 71 Altern Arbert 40 15 22 Arbert 116 12 Arbert 12 investors, but she said concern "has not yet

## WALL STREET WATCH

# **Individual Investors Begin Chasing After the Bull**

## By VARTANIC C. VARTAN

New York Times Service EW YORK -- The small investor is coming back. Tempted by a bull market streak that is verging on a record, Wall Street's retail customers are stepping out on their own to buy stocks at a faster clip than they have for several years. The growing enthusiasm is nowhere near the frenzied activity of the go-go days of past decades. In fact, so far the rise of the Dow Jones industrial average this year has been fueled by institutional investors who have long dominated the market.

Individual investors have clearly given the market an extra boost, however. And a number of stockbrokers have described these investors as nibbling at low-priced stocks while continuing to pour more money into stock mutual funds.

"We see speculative activity heating up a bit, but it certainly is "People like what said Leslie Quick 3d, president of Quick & Reilly, a leading discount brokerage firm. December was the they are seeing in the stock market, but firm's biggest month ever. And so they also feel a lot of far in January, Mr. Quick said, vol-

ume is running 20 percent higher. uncertainty." "Our gross revenues in over-thecounter stocks are running more than double last year's rate," said Peter DaPuzzo, director of retail equity

trading at Shearson Lehman Brothers. "Our volume — 60 percent retail and 40 percent institutional — is far above normal. But we are not yet in the wild-and-woolly stage in over-the-counter activity." The over-the-counter market, where small investors have traditionally

looked for fast gains, was a relatively poor performer in 1986, when blue-chip stocks captured investors' fancies. But in January, this sector has rebounded sharply.

rebounded sharply, Early this year, Shearson Lehman assembled a list of "fallen angels," including such over-the-counter issues as Cronus Industries, Apogee Enterprises, and Bay View Federal Savings & Loan, as suggested trading stocks. "We had a tremendous response from retail investors," Mr. DaPuzzo said.

Retail investors' greater interest in individual stocks is not curbing the boom in equity mutual funds, either. Net sales of the eight equity mutual funds of T. Rowe Price Associates this month are 23 percent ahead of the comparable December period, in part because of the inflow of funds for Individual Retirement Accounts,

A THE same time, mutual fund investors are switching out of safer money-market funds into their equity counterparts. "Our share owners have switched out of money-market funds to the time of \$113 million this month, and \$111 million of this sum has been exchanged for shares of our equity funds," said Steven E. Norwitz, a vice president at T. Rowe Price, "Nearly half of that money went into the New Horizons Fund, which invests in small growth companies."

Merrill Lynch, the largest American brokerage firm, reported that both its cash-account and margin-account customers bought more shares than they sold during the first week of 1987. These investors were buying approximately 100 shares for every 70 shares they sold. But since that opening week, clients have switched to the sell side, disposing of about 100 shares for every 70 shares purchased. To some market watchers, this lack of clear commitment indicates that the public remains skeptical that stock prices will continue to climb without at least a temporary setback.

"People like what they are seeing in the stock market, but they also feel a lot of uncertainty," said John DeLong, manager of Mertill Lynch's branch office in Sacramento, California. "Our volume in January is up 15 percent or 20 percent over last year, but the buying and selling is pretty evenly balanced. Some customers are still taking their capital gains. But others are asking, "How long should I hold on?"

"We have seen some buying of low-priced stocks but, as a general rule, clients are staying with quality," said Charles Cameron, who manages a Portland, Oregon, office for Smith Barney, Harris Upham & Co. "There

## **Result Called** 'Satisfactory'

**Elf Profit** 

**Off 19%** 

In Year

By Jacques Neher International Herald Trabane

PARIS - Elf Aquitaine, France's government-owned oil and chemicals giant, said Wednes-day that the combined impact of the drop in the value of the dollar and lower oil prices caused profits to decline 19 percent last year, to an estimated 4.3 billion (ranes (about \$715 million at current ex-

change rates). Michel Perquear, Elf Aqui-taine's chairman, said the result was "satisfactory," considering a 50 percent drop in crude oil prices and a 16 percent decline in the dollar's value against the franc last

In 1985, the company reported a profit of 5.3 billion francs. Earnings from exploration and

production fell by around 65 per-cent, to 3 billion francs, while refining and distribution operations posted a 2 billion franc profit after

a 400 million franc loss in 1985. A spokesman said the company's chemicals group was profitable, but he had no final figure. Group sales fell 36.4 percent, to

115 billion francs in 1986, as oil and gas production declined 5.4 percent, to 54.4 million tons of oil equivalents, Elf said,

The company produced 27.9 mil-lion tons of crude, the same as in 1985, while gas production fell 10.8 percent from year-earlier levels, to 26.5 billion cubic meters.

"We knew profits would decline, but this is better than we expectsaid Jean-Marc Blanc, an anaed, lyst with the Paris brokerage house of Jean-Pierre Pinatton & Co. "1 think they can increase their divi-

dend." Investors apparently expected worse also, as Elf Aquitaine's stock rose 2 percent Wednesday on the Paris Bourse, to close at 347 francs in an otherwise declining market. The state controls 56 percent of the company's stock, but is expected to sell its controlling interests in the next few years as part of a broad denationalization program. Mr. Pecqueur would make no

earnings forecast for 1987. But he said that the December accord among members of Organization of

## Australia Taps U.S. Beer Market As Sales Dry Up at Home, Breweries Hurry to Export

## By Richard D. Lyons

New York Times Service MELBOURNE — Aggressive marketing, good timing, luck and a dark little secret that Crocodile Dundee doesn't tell his American friends are com-bining to make beer exports to the United States

an irresistible opportunity for Australian brewers. Indeed, lately there has been a scramble to enter the U.S. beer market, and even such little-known names as Cooper's Big Barrel and Southwark's Broken Hill Lager are elbowing Swan Export and Foster's Lager for the attention of the U.S. beer drinker.

The competition is becoming so heated that several of the main players are refusing to disclose either sales figures or profitability, preferring boastful news releases. One from Carlton & United Breweries Ltd. promises that the company is going to "Fosterize" the world with its best-selling,

Foster's Lager is by far the best-selling Austra-lian beer in the United States. It is known for its aggressive television campaign featuring Paul Ho-gan, who played the title role in the hit movie Crocodile Dundee.

This is probably because Foster's so nearly mimics the American taste for lighter beer, which is no coincidence, because what Mr. Hogan has not mentioned in the television commercials is that it was first brewed in Australia a century ago by two New York brothers, W.M. and R.R. Foster, They arrived from Manhattan in 1886 and

sensed a market in this hot climate for chilled lager rather than the heavier ales popular at the time. So they sent to New York for brewing equipment, became successful with their new product, sold out and returned home at the end of the century.

Shrugging off these historical origins, Foster's officials are crowing over their success in the United States, although they decline to be specific about sales figures.

Last year, according to Beer Marketer's Insights, an industry newsletter based in West Nyack, New York, the company sold an estimated 1.8 million cases of Foster's in the United States, more than double the volume in 1982. Last year's sales represented about 90 percent of all the Australian been shipped to the United States, the newsletter said.

Australian beer is still only a drop in the bucket, of U.S. beer sales. It represents only about 1.5 percent of import sales, which, in turn, are less than 5 percent of total U.S. beer sales.

Nonetheless, imports, of which there are about 400 brands, are growing fast. And the growth of Australian beer sales in the United States was part of the reason that sales of imported beer last year grew to about 4.8 percent of total beer sales from about 4 percent in 1985, according to Beer Marketer's Insights.

Peter T. Bartels, the managing director of Carl-ton & United Breweries, was quick to point out See BEER, Page 15

To U.S. to Help Stabilize Dollar

Agence France Press TOKYO - The United States needs Japanese institutional investors to fund its bud

get deficit and should build confidence by stabilizing the dollar, the Bank of Japan's governor said Wednesday. "Even for the United States,

stahility on the exchange market is important in securing a smooth inflow of capital," Satoshi Sumita said at a business seminar, "It is a plain fact that the United States is worried that the higher yen might reduce Japanese investment

there." An executive with a Tokyu bank described Mr. Sumita's remarks as "exceptional" and said they indicated a "call on U.S. officials to refrain from

making remarks that would lead to a higher yea." Mr. Sumita also indicated that Japan would cut its basic interest rate soon. For the past two weeks, speculation about

an imminent cut in the discount rate has mounted. The cut is widely expected to be half a percentage point to 2.5 per-. cenL

exists a certain excitement about the market, but you have to realize that people in Oregon are more the show-me type." And what are retail customers buying?

"The public is buying big-name stocks like General Electric and Coca-Cola, and some people are picking up low-priced over-the-counter issues

#### **Under Study for Legality On Balance of** Payments for '86

U.S.-British Bank Pact

#### By Tony Carritt

Reuters

LONDON --- Britain said BRUSSELS - The European Wednesday that it had a bal-Community Commission has exance-of-payments deficit of £187 million (\$285 million) last pressed concern to the British government over the legality of a pact year, its first such yearly deficit on banking supervision that Britain has reached with the United States. But for December it posted a sources close to the commission

said.

balance surplus of £38 million. said Wednesday. They said that Britain might which was better than expected, after November's large deficit have violated EC law by agreeing of £232 million, the Departto the pact with Washington. ment of Trade and Industry re-Announced earlier this month, it ported. The balance of paywas described then by the Bank of England governor, Robin Leigh-Pemberton as a "landmark in inments includes total foreign trade in goods and services, plus the flow of gifts and for-eign aid, capital loans, official ternational supervisory cooperation.'

sculements and reserves. For the fourth quarter, the deficit narrowed to an adjusted £229 million from £781 million in the third quarter.

The government had forecast a £3 billion surplus for the year. but in November it revised that to a balance of zero, citing the drop in oil prices and an increase in manufactured imports.

The oil trade surplus nar-rowed to £4.144 billion last year from £8.163 billion in 1985. Imports rose t.5 percent to a record £81.343 billion, while exports fell almost 7 percent to £72.663 billion.

The sources said the subjects covered in the agreement were almost exclusively the sole compe-tence of the EC Commission, the 12-country organization's execu-"Where the commission has

competence, bilateral accords with third countries violate community law," a source noted.

Commission officials were also annoved by what was described as Britain's apparent disregard of its EC partners in making a private arrangement with the United States, the sources said.

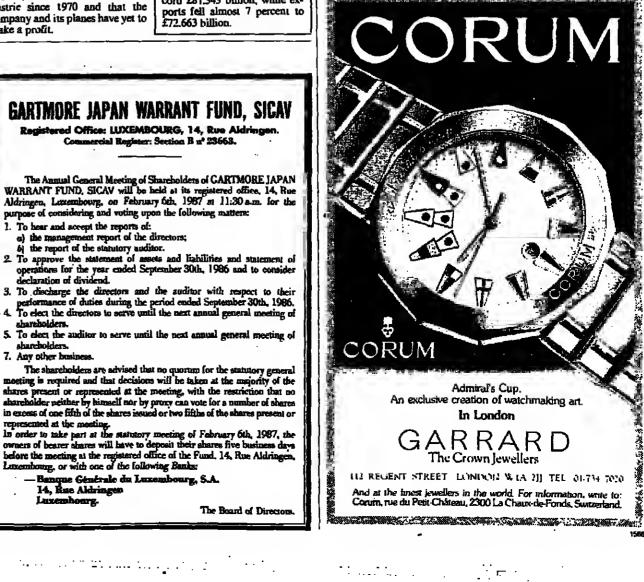

The agreement coincided with EC efforts to standardize supervi-sion of banking practices as part of the drive to establish a harrier-free Lord Cockfield, the EC commiscommon market for goods, services sioner for financial institutions, has and capital.

told the British chancellor of the The EC has, for example, already Exchequer, Nigel Lawson, that the made a proposal to standardize the technical issue of what constitutes accord is being studied by the commission's legal expens, the sources a bank's "own funds." a matter Lord Cockfield said he was redealt with in the London-Washingion agreement, the sources pointed

VIENNA - An Austrian bank, Zentralsparkasse und Kommerzialbank, Wien, said Wednesday that it had received £254.000 (about \$390,000 at current rates) as compensation for losses from an investment in Guinness PLC shares and that it was investigating the circumstances of the payment.

Guinness, the British beverage giant that is at the center of a major financial scandal stemming from its takeover last spring of Distillers Co., admitted Jan. 16 that it had been involved with Bank Leu AG of Switzerland in an illegal sharebuying operation last spring.

The operation would have driven up the price of Guinness shares and

CHICAGO - The Chicago

Vienna Bank Got Guinness Payment made the offer of cash and shares however, correct that subsequently to Distillers more attractive. Under British corporate law, it is illegal to offer financial induce-

ments, such as indemnities against loss, as a means of manipulating a company's stock prices. A spokesman for Zentralsparkasse, Helmut Roubin, said the payment to his bank followed a short-term investment in Guinness shares last spring.

"The transaction was in oo way illegal or improper according to the provisions of Austrian law and the bank was not aware that the matter possibly constituted a breach of any British law," Mr. Roubin said, reading from a statement.

He said that "the volume of the the bank's share portfobo. It is, say that the transaction was illegal.

**Higher** Charge a payment of 254,000 sterling was made by Guinness to the bank." He said that Zentralsparkasse, a leading Anstrian savings bank, sold the shares a few weeks later at a loss Wednesday that it would take a and that the Guinness payment higher-than-expected charge of was a "compensatory payment." about \$1 a share on 1986 earn-Zentralsparkasse had informed ings for its program to reduce the work force by 10 percent.

the authorities in Britain and Austria of the payment, according to Mr. Roubin. The share transacoons had been carried out on the London Stock Exchange. Results of the inquiry, which could be completed next week, will be made available to British and Austrian authorities, Mr. Roubin said. He said that the payment had not been returned to Guinness and that it would be decided next week investment was well within the nor- whether to do so. That probably mal range of share transactions for would be done if British anthorities

#### **Futures Margins** Thompson Ad Agency Fires New Chairman

New York Times Service month after becoming chairman of later. J. Walter Thompson Co., the advertising agency, Joseph W. O'Donnell has been discharged, apparently because he was in-volved in outside discussions that could have resulted in the agency's

parent company going private. Mr. O'Donnell, who had been chief executive officer of the agency since March and who became chairman on Jan. I, was dismissed Friday. Don Johnston, the chair-

NEW YORK - Less than a jobs, the JWT Group announced In a statement, JWT said only that Mr. O'Donnell had "left the company."

But reports from inside the company indicated that Mr. O'Donnell, about his meeting with the outside after conversations with an investment banking firm, had wanted to take JWT private by means of a leveraged buyont, and wanted to take Mr. Johnston's position.

Mr. O'Donnell was let go, acman and chief executive of the cording to a source close to the agency's parent, JWT Group Inc., board, because the outside board

has reassumed Mr. O'Donnell's members concluded that he had abrogated his responsibilities by talking to outsiders before talking to the board or the company's management

Kodak to Take

Reuters

It previously estimated a

fourth-quarter charge of \$16

million, or 7 cents a share, for

the program. The company re-ported carnings of \$2.8 billion in the fourth quarter of 1985.

Kodak attributed the higher

charge to "the large number of

employees leaving the company

in the fourth quarter and a lar-ger-than-anticipated departure

of higher salaried people."

Mr. O'Donnell said Sunday that he had informed the company financial people as soon as possi-ble. He said the Jan. 15 meeting was held at the suggestion of the investment bank, which he identified as the Claremont Group Ltd.

Referring to Mr. Johnston, he said, "I didn't ask for his departure.

## **Toshiba's High-Tech Plans Get Mixed Analysts' Reviews**

By Linda Sieg Reuters TOKYO - Toshiba Corp., buoyed by its recent successes in

the semiconductor field, plans to move further from its traditional reliance on heavy electrical equip- of sales to maintain its thrust into ment and into information process- new areas. ing and telecommunications. But analysts are divided over whether the strategy will work. People said we were weak in semiconductors but we did the re- ligence and biotechnology the othsearch and development and capi-tal investment and became strong." But analysts said Toshiba serital investment and became strong." Toshiba's president, Sugiichiro Watari, said in recent interview. "Now we're doing the same for information processing and tele-

communications and we expect the same results." In 1985, Toshiba became the first company to mass-produce the one-megabit dynamic random ac-cess memory, or DRAM, chips, that heralded the next generation of computers. The move boosted Toshiba to third place worldwide among microchip makers. That success improves Toshiba's

prospects for the future, industry analysts say. But they point out that the company faces problems on two fronts: its relative lag in key technological areas and the battering its profits have taken from the

strong yen. Mr. Watari conceded that the

The restructuring costs will amount to U.S.Dins 10,000.00 which; will be borne by the Fund Existing certificates will be deemed to be modified by the addition of a reference to the supplemental trust cleads referred to above. Yours Isithfully,

BankAmerica Trust Company (Jersey) Limited

Chemical Waste Management, an Illinois company that is mainly owned by Waste Management Inc., has signed an agreement to acquire Waste Technologies Industries, an Ohio partnership, for undisclosed terms, Courtanids PLC is raising its bid for Fother-

gill & Harvey PLC, valuing the company at £38.4 million (\$58.7 million). Nine Courtaulds ordinary shares are being offered for 11 Fothergill & Harvey ordinary shares, or 300 pence in cash or Courtaulds loan notes for each Fothergill share.

Duke Power Co. said its auditor had qualified its opinion on the company's 1985 financial statements and expected to qualify its opin-- 14 ion on the 1986 financial statements. The action is subject to the outcome of appeals to the North Carolina Supreme Court to allow the utility to recover about \$230 million of costs from a canceled nuclear power plant.

Genesco Inc. agreed to sell its Canadian operations for undisclosed terms to a corporation led by the investor Michael Graye and including the Royal Bank of Canada. The division's shoe manufacturing, retail and wholesale operations had sales of about \$85 million for the fiscal year that ended Jan. 31, 1986. Huels AG, the wholly owned chemicals subsidiary of Veba AG, made a record but undis-

closed profit last year and plans to continue a policy of strong expansion, said the manage-ment board chairman, Carl Heinrich Krauch. He said that Huels's profit transfer to Veba would probably exceed the 86.4 million Dentsche marks (\$47.7 million) paid in 1985.

IBG-Biotechnics Inc., a subsidiary of the French government chemicals group Rhône-Poulenc that specializes in biotechnology, has established a site at Savage, Maryland.

Josephson International Inc.'s board has authorized the purchase of 500,000 more shares of the company's stock. The company said it bought 456,000 shares of its common in the open market at an average price of \$11.22 a share from November through January.

KFW, which provides investment loans for industrial objectives, said that operating profits for 1986 rose by about a sixth from 338 million DM in 1985, before reserves were set aside for risk provisions.

Korean Air Lines Co. plans to buy \$2 billion worth of planes and parts in the next five years, its president, Cho Choong-kun, said. The company is likely to buy Boeing 747s, McDonnell Douglas MD-11s and Airbus A-300s. Kunz-Holding GmbH, a West German

timber group, will begin producing fiberboard this summer at a new Canadian subsidiary. The unit, Panfiber Inc., will have share capital of 15.5 million Canadian dollars (\$11.5 million). Mercedes-Benz of North America will increase prices 3.9 percent on 1987 cars and optional equipment, beginning with cars delivcred to dealers March 2.

R.P. Scherer Corp. has sold its Canadian subsidiary, which makes hard capsules for medicines and vitamins, to Cashman Group Inc. for an undisclosed price. The subsidiary, R.P. Scherer Hardcapsule Ltd., is based in Windsor, Ontario

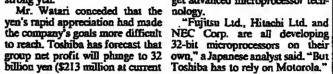

Suzaki Motor Co. expects to sell 1.02 million vehicles in the year starting April 1, up from 964,368 a year earlier, said the Japanese company's president, Osamu Sozuki. He said that 1987-88 exports were likely to total 500,000 vehicles, up from 472,460, and domestic sales were expected to total 516,000, up from 491.908

Woodside Petroleum Ltd. has sold its 50.6 percent holding in Vamgas Ltd. to Santos Ltd. after a possible higher offer for Vamgas shares did not emerge in a form acceptable to Woodside. National Mutual Life Association Ltd. also confirmed the sale of its 13.99 percent Vamgas stake to Santos.

exchange markets. He also indicated that Japan would cut its discount rate soon --something he has said would not happen until after a G-5 meetiag,

Mr. Sumita's statements seemed to bultress remarks by Finance Minister Kiichi Miyazawa last week that he and his U.S. counterpart, James A. Baker 3d, had agreed to work for an early G-5 meeting.

Japan and West Germany are the strongest critics of the U.S. policy of letting the dollar drift, because their goods have become more expensive and their export industrics have suffered

But ia West Germaoy, the Bundesbank said it was not aware of any planned G-5 meeting, while in New York, a U.S. Treasury official also denied the rumors. And in Paris, the French finance minister, Edouard Balladur, said that while he would back a G-5 meeting, none had been scheduled. News reports said earlier this

۰.

week that a meeting had been scheduled for Feb. 7 in Paris. Dealers attributed the dollar's further.

#### IN HITLER'S CERMANY: Daily Life in the Third Reich

By Bernt Engebnann. Translated from the German by Krishna Winston. 335 pages. \$21.95. Pantheon Books Inc., 201 East 50th Street, New York, N. Y. 10022.

#### Reviewed by John Gross

B ERNT ENGELMANN was a schoolboy of 12 when the Nazis came to power in his native Germany. He had been born into a family with strong democratic traditions; he and his mother were planning to move to England in the fall of 1939 (his father had already gone), but they had waited until it was too late. Instead, he spent the greater part of World War II as a radio operator in the Luftwaffe. In 1944 he was arrested, convicted of "abetting Jews," and sent to a concentration camp at Flossenbürg and then, in March 1945, to Dachan; after he was liberated, he started out on a successful career as an author and iournalist.

"In Hitler's Germany," a condensed version of two volumes that came out in West Germa-iny in 1982 and 1983, is an unusual blend of memoir and oral history. Engelmann recalls his experiences during the Nazi era, compares notes with contemporaries, interviews acquaintances and representative witnesses. The portrait of a society that emerges has many dramatic moments, but it is even more valuable for the way in which it conveys the every-day climate of life in the darkest of dark times. In a number of cases, Engelmann's inter-viewees are allowed to damn themselves out of their own months, one or two of them at some length. There is the venerable Dr. Barsch, for example, a poet and cultural journalist with a mane of white har that made him look like the playwright Gerhart Hauptmann ("a resem-blance he cultivated"). In the 1930s he had been a neighbor of the Engelmanns, and until 1933 Engelmann's father had admired his work; then he published an article glorifying the Nazi book-burnings, and shortly afterward divorced his insufficiently Aryan wife.

Mere cowardice? No, by the end of the interview it is clear that Barsch has been exaggerating the dangers to which he was exposed, and that opportunism played a large part in his actions. Engelmann is even unkind enough to quote from one of the poems he wrote in the 30s in order to carry favor with the regime.

. b

Then there is Berger, a former Gestapo in-terrogator who "simply did his duty." Naural-by be doesn't dwell on the fact that his duty included working over prisoners for hours at a time with a length of rubber tubing, but in the midst of his evasions he can't prevent a certain professional pride showing through. After be has pointed out that he never hit anyone unless he was given orders, he pauses, "as though

ng praise." With a Berger, or even a Barsch, the moral With a Berger, or even a Barsch, the moral issues seem clear-cut, but elsewhere the picture tends to be a good deal more messy. We encounter men and women who went along with things half-heartedly, others who were content to get through the day as best they could, still others who succumbed to threats and pressures that few of us can be sure we would have been able to recipt would have been able to resist.

At the same time there is never any sense of Engehnann playing down the support that Na-zism enjoyed, or the sufferings it inflicted. And if he estimates that probably no more than 10 percent of the students and teachers he knew in the 1930s were "real" Nazis, that was still 10

The school he was attending in 1932, for instance, had about 40 Nazis among its 450 pupils. One morning in May of that year they celebrated a Nazi victory in the regional elec-tions with insults and demonstrations that the principal of the school did nothing to check. At the midday recess, a 12-year-old Jewish boy was badly beaten by four Hitler Youths, "all a head taller and considerably stronger."

There are some heroic scenes in the story, too. In 1935, for instance, Engelmann met the owner of a fashionable tailoring establishment called Desch, and took an instant dislike to him. "He had a face like a carp, with cold, protruding eyes"; he was also a "Supporting Member" of the SS But Desch turned out to be a key member of a network that managed to smuggle hundreds of people out of Germany.

Saving lives in the face of the Nazis' determination to hunt down their victims called for are moments in Engelmann's account of rescue activities that sound as though they might have come from a novel, complicated episodes with couriers, codes and disguises.

When one of Engelmann's comrades in France was charged with "aiding the enemy," he had no illusions about what he could expect, and jumped in front of a train. Engelmann is a little vague about the political background of the escape organization, and there are a few other moments in the book when you want to know more than you are told. But there can he oo doubt about its being a valuable and ab-sorbing addition to the history of the period.

INTERNATIONAL HERALD TRIBUNE, THURSDAY, JANUARY 29, 1987

## The Handicapped Find Fresh Hope on the Slopes By Peter Conradi

Reviers ENGELBERG, Switzerland --- Briton David Clarke, 26, was paralyzed from the chest down when he was hit by an urban guerrilla's

buller in Northern Ireland. American Chad Collet, 42, lost both legs in Vietnam.

But, along with more than 120 other paraplegics and amputees from across the world, male and female, they came to this resort near Lucerne to prove that winter sports are not just for the completely able-bodied.

They spent a week bere earlier this month learning about the latest developments in ski technology, trying out new equipment and taking to the slopes to test themselves competitively. "It's great to go out with my family and

just do something that able-bodied people do," said Collet, who played college football and was a pole-vaulter before serving with the U.S. armed forces in Vietnam,

He started out four years ago on a simple sled — be called it "my bath tub" — but now takes to the piste on a seat mounted by a firm metal spring onto a single ski. "It's the only sport I can do," said Clarke, sitting to a more sophisticated monobob, a

small fiberglass eraft steered and given extra stability by two small hand-held skis. "And it can be fun — if you get it right." Switzerland's Paraplegic Association first organized an international meet for handi-

capped skiers here two winters ago. Since then, the sport has grown worldwide and championships have been staged elsewhere.

But the Engelberg event is the only one where paraplegics and experts not only race but meet to discuss handicapped skiers' problems.

0

This year teams came from as far afield as Japan, Australia, Canada, West Germany, the United States and Britain.

"It occurred to us in 1985 that there had never been an opportunity for people in wheel chairs 10 learn winter sports," said organizer Andre Deville. "This year the goal was to develop the teaching further and look at ways of preparing people for competi-Lions.

Paraplegics and those familiar with their problems agree that winter sports bring enor-mous benefits, both physical and psychological. Provided the right equipment is used, these activities are no more dangerous than they are for the able-bodied.

"If you have to sit in a wheelchair all the time, then gliding on the snow is something very special," said Caroline Bergenstrom, a traince physiotherapist from Geneva. "And there is the great advantage that they are not forced into a ghetto with other handicapped people.'

But the problems to be overcome in an environment designed for the able-bodied are great.

Getting up to the slopes in a wheelchair before fitting into the bob is often a struggle, while boarding the ski lifts requires help and patience from lift operators. Clarke, one of the most seriously handicapped people here, said that if he falls over in his bob, he often cannot right himself again.

Obtaining suitable equipment is a problem. One company, GFL Technik of West Germany, sells a monobob, but it can cost as much as 500 Deutsche marks (\$1,375). Some people - Collet is one - make their own, although experts say they can often be unsafe.

Although oo one knows the number of handicapped skiers worldwide, experts here said the sport is obviously growing, taking its place alongside such other, more common, wheelchair sports as basketball and athletics. It is also becoming more competitive.

"Unul five years ago, anyone turning up for the U.S. national competitions could just take part, even if they had never skied before," said Collet. "Now you have got to win

a regional championship first." "Despite the difficulties, it is worth it, it's great fun," said Josef Schwyter, a Swiss mechanic who lost the use of his legs after being knocked off his motorbike.

"My wife, who is able-bodied, always used to go off on skiing holidays, so about two years ago I thought I would too. I bought a bob last year and have been in intensive training ever since."

Like many other skiers here, Schwyter said he usually meets with sympathy from lift operators, although able-bodied skiers often cannot believe their eyes when he hurtles

"Normally they just look oddly at me, but friends skiing behind bear what they say." he ughed.

Things like 'He's skiing like a madman' and "What are these people with wheelchairs doing in the mountains. anyway?"

ind Prayer (as By Barbara Lloyd New York Times Service FREMANTLE, Australia - The two boats that will sail against each other for the America's Cup have .... something crucial in common Neither Deanis Conner's Stars & 

Stripts oor Iain Murray's Kooka-huura III competed here last year in "the 12-meter world championships, int and both were criticized for not and and the doing so. In retrospect, it appears that their absence may have had something to do with their ultimate ...... victories in the cap trials.

John Marshall, the design coordinator for Stars & Stripes, said he was convinced that those who sailed in the world championships - a flect series involving 12 boats - came away with skewed ideas. The cup-final series, which begin here Saturday, involves match racing a format calling for different design features from fleet racing. "In the world championships, fleet racing was clouding the view of what match racing is," Marshall said. "We took a deep breath, and said we needed to stick to our own strategy and not follow the others." 4-Marshall's team developed a boat designed for the heavier weather conditions that could be expected here during the summer months -December through March - while most of the other cup challengers came up with all-weather boats. The Kookaburra team also just watched during the world championships; like Conner's group, it chose the

nisks of isolation. Ben Lexcen, the designer of Alan Bond's Australia IV, said that wining the world title with Australia Ill may have been the team's Wa-We thought then that we

## **ART BUCHWALD Double-Dealer Doctrine**

WASHINGTON - The new foreign policy of the United States is to feed disinformation to both countries engaged in a war so that neither one can win. It's called the "No-Win Good Neighbor Fairness Doctrine,"

The need for such a policy devel-oped when the Iragis and Iranians started shooting

at each other six years ago and the United States decided it would he a disaster if one of them won. 900

special A working group called "Double Dealer" was set Buchwald up in a safe

house on North Poindexter Street to see it did not happen.

Luke Booney, recently retired from the CIA, the National Security Council, Southern Airways, inglaub's Raiders and the Iranian-American Friendship Society, is in charge of Double Dealer. He said the program is one of the most dicated projects the U.S. has COUNT ever been involved with.

Booney told me, "It's one thing to see that one side defeats another in war. It's much more difficult to make sure both lose." I said, "No one said being even-

handed in war was a picnic." "The only thing that keeps us going is that we hate the people running Iran — and we can't stom-

ach those running lraq." "Recently you gave Iran arms to beat up on Iraq. Aren't you tilting toward the ayatollah?"

#### **RSC Plans 47 Productions** The Associated Press

LONDON — The Royal Shake-speare Company has scheduled 47 productions for the 1987-8 season. Jeremy Irons will repeat his three roles in "The Rover," "The Win-ter's Tale," and "Richard II," as will Jonathan Pryce with his highly praised Macbeth. Five plays by Jean Genet will be staged, among them "The Maids" and "The Balcony." The company will also perform the British premiere of "Sarcophagus," a play aboat the Russian ouclear disaster at Cher-nobyl written by Vladimir Gubar-

"No, because at the same time we gave lraq top secret satellite photos showing where the Iranian arms were. This is a perfect example of double dealing. It's called playing both sides against the Middie East. The Iranians got arms to kill Iragis, the Iragis received intel-

ligence photos to destroy the Iranians, and we got money for the contras." "What else does Double Dealer do to keep the war stalemated?" "We provide misinformation to both sides. Recently Iraq was ex-

pecting an attack on its border by the Iranians. We misinformed the Iraqis where the Iranians were going to come. The Iraqis prepared their defense in one place and the Iranians attacked in another." "How did you guarantee that the Iranians wouldn't gain the upper

hand?" "We sold them faulty arms 50 when they attacked their missiles would fail. Because of our reliable

disinformation no one got anywhere. Excuse me, I have to send a telex to Teheran informing them that Baghdad is going to overrun "That's not true, is it?," I asked

"Of course not, but it might slow down the fighting in Basra. We don't want the Iranians to win in Basra because it will only encourage them to keep fighting. The Fairness Doctrine requires that both sides get so exhausted they ask us to be the peacemakers." Π

"Is this the first war the U.S. ever got involved with in which we idn't want anyone to win?" "There have been others, but this

is the first one which we've taken such an active role. The reason why is because we have both Iran's and Iraq's best interests at heart." "I read the other day that Iraq claims the disinformation you gave them produced a disastrous defeat for them at the Iraqi seaport of Fao. They're pretty damed mad

about it. "They have nothing to he upset about, Double Dealers are scrupulous about seeing everyone gets a fair shake." How can they he sure they're getting equal amounts of disinfor-

The Vietnam Demons of Oliver Stone

By Paul Attanasio Washington Past Service NEW YORK — Blunt fea-Ntures. Hard man in a soft

sweater. "Sometimes you just have to lay back. You have to be chilly,"

says Oliver Stone. In regarding this advice, consider the source, who:

· volunteered for combat duty in Vietnam; • accepted a Golden Globe

Award (for writing "Midnight Express") with a tirade demanding changes in U.S. drug laws; • felt "refreshed" making his film "Salvador" because "I got

the exact feeling of Saigon 1965 in Honduras." Stone has deftly promoted and positioned "Platoon," his latest film, a fictional Vietnam memoir,

for an Oscar nomination, and it seems a good bet. He has done everything he can

to make sure that "Platoon," uplike "Salvador," isn't buried in the marketniace.

But the care Stone has devoted to "Platoon" stems from more than his usual obsessiveness. more than the fact that it took a decade of persistence to get it made, more than the political commitment that, in Stone's eyes, makes the movie an antidote to "Top Gun." By making "Pla-

toon," Stone put some of his demons to rest. In 1976, "Platoon" was Oliver Stone's calling card. The script impressed the executives at Columbia sufficiently to assign him

"Midnight Express," a low-bud-get picture at the tail end of their annual slate

Stone's script was vivid, well built and ruthless, and "Midnight Express" was a surprise success. Stone, a drifter who had been driving a cab the year before, won a Writer's Guild Award and an

Oscar for Best Screenplay. "It's like winning the lottery," Stone says. "I was a Golden Boy for a few weeks there, a few months, I was meeting all kinds of

big actors; they wanted me to write screenplays for them." What was the Golden Boy like?

thing. Including bosses' wives. Which is a big mistake to do. Not playing the Hollywood game, which is basically like the butler in the old mysteries, just come and go quietly, just write." Stone frittered away the Oscar

momentum, making an exercise in horror called "The Hand," starring Michael Caine. "I went from being very hot to being very cold," Stone recalls. "I

value the experience, because you see who your friends are, if you have any. Who returns your phone calls. I got a crash education in Hollywood in about a year, put it that way. And it was omething I never learned in film " loods

So began Stone's odyssey as a writer for hire. "I left L.A.," he remembers. "I cut drugs out completely. I wanted to restructure my life; I wanted to leave L.A., I wanted to get out of that whole

lifestyle that I had been in." "I knew that my scripts were " not as good; they were starting to get flatter. I wasn't right in my own skin. So I got married, and my wife and I both tried to sort of cut down

"I was pretty wild in those days," He made "Scarface," which Stone recalls, "I was doing a lot of drugs, I was drinking, I was a bachelor, so I was chasing every-sults weren't exactly as Stone had

Vietnam completely deadened me and sickened me,' the maker of 'Platoon,' says. 'I came back very paranoid and very alienated.'

vate-screening circuit in Holly-"I thought it was gonna be a comeback for me," says Stone. "I wood.

Stone says, "I didn't make a devoted more than a year and a dime from the movie," he says. "I ended up losing some \$17,000." Stone got something more out of "Salvador," though. At long last, he got the chance to make "Datcom" half on it, really worked at it. And it was one of the most reviled films in Hollywood." Stone kept trying to sell "Platoon." But the ver was always the same: "Platoon."

answer was always into sense: "Nobody's interested in Vietnam anymore." "Too depressing." "After 'Apocalypse Now and "The Deer Hunter,' what more Oliver Stone dropped out of Yale to join the infantry and fight in Vietnam

His father was a stockbroker, Finally Oliver Stone got fed up. "This was it," he remembers. "I an extremely conservative Republican who had served as a colonel with Eisenhower's staff in World was gonna make my last stand. I wasn't gonna write anymore; I wasn't gonna work in these lousy War II.

His mother was a French Roman Catholic. His father was Jew-ish, a New York provincial; his mother was a worldly, soph cated woman who, later in life, would hang out with younger people and hold court in Studio 54. had the good fortune of running

At the time he met Stone, Da-"She'd always get me to play hooky so I could accompany her to the movies," Stone remembers of his youth. "Double features." ly's company, Hendale, was most notable for "The Terminator," James Cameron's 1984 science-

Stone was a troublesome teen-Stone went to Daly with the script for "Salvador" and the kind ager, but he didn't rebel against ins father's politics. "I was very gung-ho," he recalls. "I supported Goldwater in '64. My dad was a of offer a producer can't refuse -Stone would direct it for no fee. very strong believer in Republi-The movie got a tremendous can principles."

with shrappel in the legs and buttocks. He learned to be a soldier, and he learned to bully the Viet-namese. And he learned disillusionment.

sonment. "Vietnam completely deadened me and sickened me," Stone says. "But I don't think I came back in any sense a radical. I came back very mixed up, very paranoid and very alienated.

"Basically I was drifting around for a period of time, doing a lot of drugs, a lot of acid, and really kind of at a loss in my life. Not really going anywhere, not knowing what to do. I was really messed up."

Fight years after Stone got out of Vietnam, he wrote "Platoon" to get Vietnam out of Stone.

The first cycle of Vietnam movies — "Apocalypse Now," "The Deer Hunter," "Coming Home" — were made for the people who stayed home. The second cycle — "Uncommon Valor," "Rambo," "Missing in Action" — were made for the people who stayed home, but wished they had gone.

"Platoon" inaugurates a third

cycle of Victnam movies, includ-ing Stanley Kubrick's "Full Metal Jacket" (due later this year) and "Hamburger Hill," written by another veteran, James Karabatsos.

But "Platoon" is the first Vietnam movie made by someone who actually fought there, and the result, in Stone's words, is to "put the viewer in the war, to make him a participant. To understand what the boys went through over there. And to say, 'Never again.'

"When it actually was fin-ished," Stone says of "Platoon," "I said, Boys, that was the best day I've had since I returned from Vietnam.' That, maybe the day I got married, the day I had my

"But it certainly was one of the best days of my life, that morning in the Philippines. All-night shoot, 54th day, finished on schedule. And I remember driving back alone with a driver to Manila, two-hour drive. And I remember all the fields, and the all the peasants coming out to work in the first light of dawn, and the water buffalo. I felt I'd done something, I'd achieved

Joan Collins's Hushund Seeks Alimony Payment

The estranged husband of Jos. Collins will seek monthly supplier of five figures from her in divort proceedings, his lawyer said. "We don't have a figure yet, because we don't have all the information." Frank Steinschriber said. "But it will be in the five-figure range, meaning at least \$10,000 a month. The British actress, who earns \$1.5 million a year playing the elegant, bitchy Alexis Carrington in the "Dynasty" television series, filed a divorce petition against Peter Holm, her fourth husband, las' month. Her previous marriages al ended in divorce.

Former President Jimmy Carr dedicated research facilities at it presidential library in Atlanta, opening more than six million papers from his administration to the public, the first of about 27 million. pages of documents that eventually will be available. Carter said at a ribbon-cutting ceremony that 99.9 percent of the documents from his presidency will be available for perusal.

Jacky Frien, chef at the Hotel Lutetia in Paris, won the first Gold-en Bocuse cooking award in Lyon, beating out 19 other culinary artists from as far away as Japan. He dazzled the jury in the finals by whipping up in less than four hours a chicken dish called fine volaille de France aux richesses de France and walked away with the \$10,000 fit in prize and a trophy named after the celebrated chef Paul Bocuse.

The singer and songwriter Billy Joel was honored by the Congressional Arts Caucus for "his outstanding contribution to our cul-mrai legacy." The annual award by the caucus, composed of nearly 200 House and Senate members who are supporters of the arts, was pre-sented to Joel at a Capitol Hill luncheon in Washington by the caucus chairman, Representative as J. Downey, Democrat of The New York.
